"At Seebald & Associates our FSO training goes far beyond meeting the minimum regulatory requirements. We want your facility to be a leader in your area and we strive to make your Facility Security Officer so knowledgeable about the security regulations and your Security Plan that they impress the Coast Guard inspectors during their annual or surprise inspections. If you follow our guidance on audits, training and drills, you will never receive a Notice of Violation." -- Edward Seebald CEO (CDR, US Coast Guard Retired)

Quotes & Testimonials

" This course is one of the most detailed training sessions I have every attended. As a prior Coast Guard Officer, I have received regular high-level training. I have found this training exceeds the effectiveness of any government training I have been involved in previously. I would recommend this course to any person with vested interest in the security of a regulated facility."

James "Matt" Peeler
Exxon Mobil

"Ed, yesterday I had my first 'official' Coast Guard inspection and PASSED with flying colors. The questions I was asked were everything you covered in our FSO class, so thank you so very much. The CG marked our official document as 'No Deficiencies Found', cool huh? Anyways, hope and pray you are well and will await your reply...thank you again. Regards

Tuli Fruean- Starkist - American Samoa

" Ed, your knowledge of the Federal regulations is impressive. It is nice to have an instructor with such extensive background that can deliver the required material in a way that is never dull. Your interaction with the class is refreshing! Enjoyed it all....."

Nick Maxwell - Mississippi Security Police

"Without a doubt, the Seebald FSO course is the most informative security course available. The results leave the students with confidence, knowledge & professionalism."

Robert Berliaw - TPC Group

"This training was invaluable to me in my position as a FSO. Not coming from a security background, it empowered me to handle this aspect of my duties with confidence. It was presented in a manner that was applicable to me where I work. I would highly recommend the course to anyone in my company that is in a FSO role. I look forward to having Ed back in a few years to take this class again."

Tyler Merwin – Chevron

"Ed has a unique way of keeping our attention through this material. It is dry and boring but Ed's energy and experience makes it easier to understand".

Lee Hobison - Chevron

"This course was definitely value-added and it will benefit me in my job responsibilities. I would strongly recommend a refresher course every 2-3 years to remain updated with the laws and guidelines involving the AFSO position! Ed, you did an outstanding job!"

Tonnie Hopson – Chevron- June 2011

"This was a confidence and knowledge building course. Information in content & in leadership building."

Phil Bartle - Holcim US

" As I said the last time the awesome time and lots of knowledge in that brain of yours. Thanks for cracking it open and sharing it with us. We are all better and know our job."

Nathan Deville - New Orleans Cold Storage

" Enjoyed the life experiences that we added into the course to help drive the point home. The team exercises were also helpful to re-enforce the material. Good Job!"

Marc McLendon – Chevron
