"At Seebald & Associates our FSO training goes far beyond meeting the minimum regulatory requirements. We want your facility to be a leader in your area and we strive to make your Facility Security Officer so knowledgeable about the security regulations and your Security Plan that they impress the Coast Guard inspectors during their annual or surprise inspections. If you follow our guidance on audits, training and drills, you will never receive a Notice of Violation." -- **Edward Seebald CEO (CDR, US Coast Guard Retired)**

**Registration and Payment can be made at [www.SEEBALD.com](http://www.SEEBALD.com)**

## Quotes and Testimonials

"This was one of the most robust training classes I have taken in the maritime industry. Ed and Tom were very engaging and knowledgeable, which enabled them to answer all the questions the class threw at them. I would recommend this class to all terminal operators and stevedores, regardless of whether or not they are designated FSO's."

**Jason Winter**  
**Ports America**

*"Mr. Seebald brought a plethora of knowledge to the training. He not only preached professionalism but acted professional the entire course. I have already recommended this course to other Coasties."*

**USCG Compliance Officer**

"Wish I took this five years ago and 10 USCG visits ago. Ed, thanks for your help."

**Bob McDermott**  
**Global Companies**

"Mr. Seebald's USCG experience and engaging teaching style make this class a must for all FSO's. He takes all of the regulations and legal terms and presents them in easy to understand terms. Mr. Seebald and his Associates will help make your facility secure and on the right side of the regulatory agencies."

**Lee Balcer**  
**Chevron**

*" This course is one of the most detailed training sessions I have every attended. As a prior Coast Guard Officer, I have received regular high-level training. I have found this training exceeds the effectiveness of any government training I have been involved in previously. I would recommend this course to any person with vested interest in the security of a regulated facility."*

**James "Matt" Peeler**  
**Exxon Mobil**

*"This course was one of the most thorough and engaging courses I have ever taken. Complex information was clearly communicated and delivered in a way that each class member could understand (CFR's, PAC's, NVIC's, Regulations, Laws, etc.) I am now armed with information that helps protect both myself and my company. This course was very motivating and had me excited about the material at hand. I will return to my job and make a difference."*

**Marc P. Connenna**  
**APM Terminals**

*"I am glad I got invited to attend this course, because there are a couple of things we did at our facility that happen to be wrong. With this training, I think I have enough tools to do my job better and to reduce as much as I can any threat to my footprint. I will ask my boss to make sure that everyone with security duties gets to train with Seebald. L Thank you!"*
