P. O. Box 3269
Beaumont, Texas 77704

The 489th meeting of the Sabine-Neches Chiefs Association was called to order by Past President John Judice at 10:00 AM on Wednesday, January 3, 1990.

John Judice presented Ed Harris with the SNCA gavel to signify the changeover to new officers of the organization.

The invocation was given by Curtis Holden.

Ed Harris introduced Bill Galloway who welcomed the group on behalf of Quantum Chemical Co.

Self-introductions were made.

The minutes from the 488th were read and approved.

Bills from "Bosses Night" were discussed and approved for payment. Louis Miller made the motion to pay the bills and Jerry Wimberly seconded.

John D. McHazlett of Merichem was introduced. John will be the representative for Merichem.

Bosses Night

Bill Roe stated that there was 190 meals served. We were not charged for the extra meals.

All other committees stated that everything went well.

Committee Reports:

Audit Committee

Ed Harris asked that the Audit Committee conduct an audit of our records to clear the books for the new Secretary-Treasurer.

The 489th Meeting of the Sabine-Neches Chiefs Association
January 3, 1990
Page 2

Fire Boat Committee

All items have been sold and picked up by the buyer. The committee will meet to determine other matters concerning using the pumps.

Ed Harris reported that he is forming new committees for the 1990-1991 term. All committee chairmen will be contacted. Ed asked that you contact him if you wish to serve on a committee.

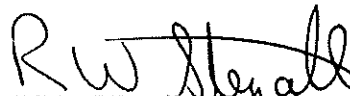

Recent emergencies were discussed.

Bill Roe discussed the hazard of wrapping your gas meter to protect it from cold weather.

Program

Mike Lovelady introduced Sally Rieger of Channel 6 News who spoke on how the news media functions during an emergency.

The meeting was adjourned at 12:00 Noon.

R. W. Stegall, Past Secretary-Treasurer
Sabine-Neches Chiefs Association

RWS:dab
(safe\489)

NOTE: The 490th meeting of the SNCA will be at the Ramada Inn in Orange, Texas, on February 7, 1990. The host organization will be West Orange Volunteer Fire Department.

PRESIDENT

VICE PRESIDENT

D. A. Bruce

SECRETARY TREASURER

E. J. Leysath

MAILING ADDRESS:

E. I. du Pont de Nemours
c/o E. J. Leysath
P. O. Box 3269
Beaumont, TX 77704

The 490th meeting of the Sabine-Neches Chiefs Association was called to order by President Ed Harris at 10 a.m. on Wednesday, 2/7/90. The invocation was given by Curtis Holden.

Ed Harris introduced Chief Tommy Aven who welcomed the Association on behalf of the West Orange Volunteer Fire Department.

The minutes from the 489th meeting were read and approved.

Self introductions were made by all those present.

The three fire pumps from the decommissioned fire boat have all been assigned to various industrial members for conversion to skid mounted fire pumps. The conversion process is well underway on all three pumps. The fire boat hull may be used by Lamar University for a project at the training ground. If Lamar does not use it, the hull will be sold for scrap.

Committee assignments for 1990-91 were announced. (See Attachment I)

Ed Harris reported on the recent legislation concerning Industrial Emergency Vehicles and the registration process published by the Texas Industrial Fire Training Board. (See Attachment II)

Recent emergencies were discussed.

There will be a residential sprinkler workshop on 4/25/90 sponsored by the Beaumont Fire Department. Contact Chuck Mullins if you need more information.

We need help to complete the industrial complex at the training ground. Contact Dennis Bruce for specific needs.

Registration for the annual industrial fire school to be held 5/21-25/90 is now in progress. Please sign up as early as possible.

The American Red Cross has a portable first-aid station that is available at no charge for use at drills, emergency training exercises, or related activities.

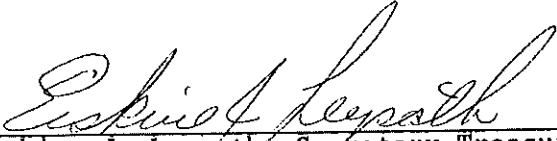

Dan White reported that OSHA is likely to be very pro-active in the coming months. Dan got his information from an OSHA program at a recent ASSE meeting.

RECEIVED
BMT FIRE DEPT

MAR 2 1990

Mike Braddish from Southern Union Gas presented a very informative tape/slide program on the properties of natural gas and related fires.

The 490th meeting was adjourned at 12 Noon.

Erskine J. Leysath, Secretary-Treasurer
Sabine-Neches Chiefs Association

NOTE: The 491st meeting of the SNCA will be held at Moncla's in Beaumont on 3/7/90. The host organization will be ATOCHEM N.A.

VICE PRESIDENT

D. A. Bruce

SECRETARY TREASURER

E. J. Leysath

MAILING ADDRESS:

E. I. du Pont de Nemours
& E. J. Leysath
P. O. Box 3269
Beaumont, TX 77704

MAR 27 1990

The 491st meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 A.M., Wednesday, March 7, 1990, at Monclas in Beaumont. Invocation was given by Curtis Holden.

Ed Harris introduced Mr. Ed Gerhardt, Plant Manager of Atochem (formerly Pennwalt Corp.) who, as Host, welcomed the organization. Mr. Gerhardt presented a brief resume of the area activities, reminded all of increasing governmental involvement in industries action and expressed the goal of local industry to help provide a legal, environmentally sound, safer environmental area in which to live. Mr. Gerhardt commented that he had welcomed this group once before, about four years ago, when he first came to this area and was introduced as the "new" Plant Manager of the old "Pennwalt" Company plant.

The minutes of the 490th meeting were read and approved.

Self introductions were made by all those present.

Ed Harris reported that all committee assignments had been made. If anyone not listed wished to serve on any of the Committees, they should talk to the Committee Chairman and in all probability would be acceptable to the Chairman and members.

COMMITTEE REPORTS:

EDUCATION COMMITTEE:

Dr. Gary Ensign, Lamar University, announced the plans for a course on "Hydraulics" to be held on June 13, 1990 from 8:30-12:30. This course will be useful to all Fire Department personnel, but is targeted for Plant Managers and personnel who decide equipment specifications.

Dr. Ensign reported that the Industrial Fire School already has 100 participates signed up and many are coming from out of state.

PROGRAM COMMITTEE:

Chairman Mike Lovelady announced that this Committee will be meeting to plan the programs for the rest of the year and that they would be announced to further interest in the subjects.

FIRE PUMP COMMITTEE:

Lester Crooks announced that fabrication of portable skid-mounted units as planned are in progress with the first expected to be operational within a month and all three operational within three months.

FIRE TRAINING GROUNDS:

Ezra Gordon reported the grounds were in good shape. He also reported that dirt and sand is needed at the fire field for fill and leveling and that backhoe and/or grader operators would be appreciated. He reported that two welding mechanics are working on the chemical complex, but more may be needed to finish the project by the time the Industrial Fire School starts.

Dr. Ensign reported that field restrooms are currently being installed adjacent to the sprinkler system evolution. He further reported there will be separate units for the two genders.

Ezra Gordon reported that, following the industrial school, the overhead pipe rack project will be renovated. He also warned - if you haven't helped with the chemical complex project, look out, you'll get hit hard on the pipe rack project.

INDUSTRIAL FIRE TRAINING BOARD QUALIFICATIONS:

Ed Harris explained the packet of material recently mailed by the State Firemen and Fire Marshalls Association of Texas concerning participation in the Industrial Training Section. He reminded all that Industrial Fire Training participants have 78 members in the State of Texas, but that Orange/Jefferson counties have, probably, about 48 eligible, but only 1/3 of those are members. Ed reminded all that training was a part of 1910.120 and that an OSHA visit in 1990 to an industrial site indicated OSHA was generally satisfied if that industry was an Industrial Fire Training participant as indicated by the Fire Board.

Ed also gave additional information on registration of emergency vehicles (required for industrial vehicles) and the fee of \$25/vehicle covers two years. The stickers give the participant the right to operate on public roads as an emergency vehicle.

CRITICAL INCIDENT STRESS DEBRIEFING:

Gary Duncan and Don Bailey announced that in conjunction with Lamar University and the John Gray Institute, a three-day course was being developed to help firemen, police and any others, who routinely are exposed to violence, to cope with the stress it fosters. It is expected this course will be available by October.

HAZWOPPER TRAINING:

All were cautioned to check the credentials of organization being used to provide training. After March 6, 1990, that organization must be on a accredited list or the training is not valid.

Melvin Schmidt - Chevron, announced that their Hazardous Waste Coordinator, Mr. Robechaux had obtained a 70-barrel vacuum trailer that could be used by members of the organization upon request for an emergency.

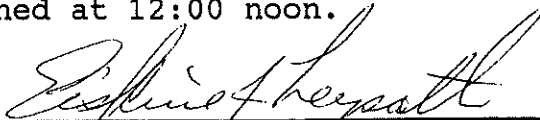

Recent emergencies were discussed.

PROGRAM:

Mike Lovelady introduced Lynn Fultz, a representative of Emtech, who presented a program on "Hazmat Specialist - First Response". Briefly, Mr. Fultz reported that:

1. First responders must be trained per 1910.120.
2. Identify the material.
3. Contain the problem (anything to prevent spread).
4. Provide a Site Safety Plan to provide for safety of public and participants.
5. Better you perform Step three, the easier to clean up.
6. Provide a definite disposal plan.
7. First responder required to report to TWC & EPA.

The 491st meeting adjourned at 12:00 noon.

E. J. Leysath, Secretary
SABINE-NECHES CHIEFS ASSOCIATION

NOTE: The 492nd meeting of the SNCA will be held at the Ramada Inn in Port Arthur at 10:00 A.M., on April 4, 1990. The Host organization will be Ameripol, Synpol.

MAY 30 1990

MAY 30 1990

The 493rd meeting of the Sabine-Neches Chiefs Association was called to order by President Ed Harris at 10:00 a.m., Wednesday, April 4, 1990 at the Palace in Beaumont. The invocation was given by Curtis Holden.

Ed Harris introduced Jim Kirk, president of the host department, Bevil Oaks Volunteer Fire Department. Jim welcomed the organization and introduced John Gundolf, chief of the Bevil Oaks VFD, and several other members of the department.

Self introductions were made by all those present.

The minutes of the 492nd meeting were read and approved.

Committee Reports

Fire Pumps:

A special demonstration of the SNCA fire pumps will be scheduled in the near future.

Education Committee:

The annual fire school has 341 students registered. This is 20 more than last years total attendance.

Lamar University has scheduled a half-day seminar entitled: "How to Move a Lot of Water". See the enclosed letter for information on the seminar. This seminar is jointly sponsored by Lamar University and the SNCA.

Lamar University is planning to offer a site safety seminar this fall. More information will be available as the plans are finalized.

Lamar University is planning a first responder seminar for future presentation.

Special thanks to Quantum Chemical Co. and their safety director for the large donation they recently made to the Emergency Medical Services in this area.

Brochure Committee:

The SNCA brochure and equipment inventory is being updated. Please fill out the attached equipment inventory form and send it to: Fina Oil & Chemical

John Judice
P O Box 849
Port Arthur, TX 77640

Some of you received these inventory forms at the May meeting. Please make sure that John receives your completed inventory form in a timely manner.

I. D. Cards:

Provisions are being made to issue SNCA I.D.Cards to those who need them. Make sure Robert Bucklin is aware of your needs concerning I.D.Cards.

Training Grounds:

Chuck Mullins reported that the training ground would be ready for the annual school. The status of the new or rebuilt projects

is: Foam Project ----- 100%
Industrial Complex ---- 50%
Rest Rooms ----- 100%
Pipe Rack ----- ready to begin

D.A.Bruce announced a need for 9,000 gallons of light fuel for the annual school. D.A. also asked that everyone make an effort to attend the work day at the training ground on Saturday, 5-19-90.

Special Announcements

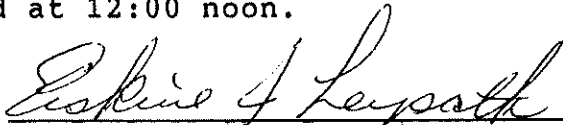

Ansul will conduct a half-day seminar on hand held fire extinguishers on Wednesday, 5-9-90, at the Port Arthur Ramada Inn beginning at 1:00 p.m..

The LEPC has scheduled a public demonstration of a community alarm system on 5-8&9-90 starting at 8:00 a.m.

Recent emergencies were discussed.

Mike Lovelady introduced Bobby McDaniel from the United States Weather Bureau who presented an interesting program on hurricanes.

The 493rd meeting was adjourned at 12:00 noon.

E. J. Leysath, Secretary
Sabine-Neches Chiefs Association

NOTE: The 494th meeting of the SNCA will be held at the Ramada Inn in Port Arthur on 6-6-90 at 10:00 a.m. The host organization will be Fina Oil & Chemical Co.

The 492nd meeting of the Sabine-Neches Chiefs Association was called to order by President Ed Harris at 10:00 a.m., Wednesday, April 4, 1990 at the Ramada Inn in Port Arthur. The invocation was given by John Williams.

Ed Harris introduced Curtis Holden from the host company, Ameripol Synpol, who in turn introduced his Safety Director, Pat Nicholson, who welcomed the organization.

The minutes of the 491st meeting were read and approved.

Self introductions were made by all those present.

A 1991 Host List was requested by several of those present (see attached list).

Approximately 75% of the 1990 dues have been turned in and deposited. If you need to know about your individual company, check with Erskine Leysath.

Committee Reports

Education Committee:

Dr. Gary Ensign reported good response to the 6/13/90 "Hydraulics" school. Contact Lamar University for more information.

Dr. Ensign also reported that 203 students are already signed up for the annual fire school. Several of these students are from out of state and Dr. Ensign requested help in making all students welcome to our area.

Brochure Committee:

John Judice reported that a brochure update is in progress and he will need help from several other committees to make sure all the information is correct.

Communications Committee:

No report. John McHazzlett offered to let the SNCA use Merichem's 600'

MAY 3 1990

radio tower located in Winnie if needed.

Audit Committee:

Bill Roe reported that the 1989 audit was the most complete ever. He extended his personal thanks to Robert Stegall and Grady Baldwin for keeping their records in such good order. He then presented the 1989 audit report to the Board of Directors.

Training Ground:

Chuck Mullins and D. A. Brace both reported on the status of several projects at the training grounds. The industrial complex, the pipe rack, the storage tank, and the restroom projects are all nearing completion. Dennis asked everyone to come out for a work day on 5/19/90 to finish any odds and ends before the annual school.

Identification Cards:

Robert Bucklin will supply I.D. cards to any member that needs them.

Special Announcements:

Rick Swift with Ansul invited all interested parties to attend a free generic fire extinguisher seminar on 5/9/90 at the Beaumont Holidome from 1:00 p.m. to 4:00 pm.

Boots and Coots will conduct an advanced foam seminar on 4/23/90 and 4/24/90 at the Fire Training Ground. Contact Boots and Coots for more information.

Dr. Gary Ensign announced that the Industrial Fire Program at Lamar has advertised for a director.

The Coast Guard will conduct response training 6/6/90 to 6/8/90. Their Atlantic Strike Team will be in Port Arthur to conduct the training. Contact the Marine Safety Office if you need more information.

Pete Shelton thanked Boots and Coots and the 3M Company for the fine foam project that they built and donated to the Fire Training Ground.

Richard Harley will provide a copy of the regulations covering emergency response to anyone who requests it.

The Chevron Safety Train will be available to the public on 4/12/90 for training. Contact Paul Landry at Chevron to schedule a visit.

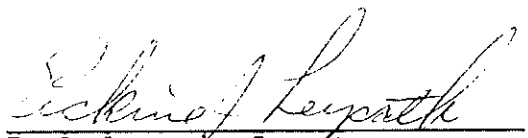

The United States Weather Bureau will conduct a hurricane seminar on 5/22/90. More information will be available later.

Recent emergencies were discussed.

Program:

A program dealing with recent changes in the "Emergency Vehicle Laws" were presented by Jim Kirksey. Jim is a member of the Texas Department of Public Safety. Jim reported that most "Emergency Vehicle" operations would be exempt from the new commercial vehicle license requirements. If you need more information about driver licensing requirements contact Sgt. Lance Goins at the Beaumont Driver License Office.

The 492nd meeting was adjourned at 12:00 noon.

E. J. Leysath, Secretary
Sabine-Neches Chiefs Association

Note: The 493rd meeting of the SNCA will be held at The Palace in Beaumont on 5/2/90 at 10:00 a.m. The host organization will be the Bevil Oaks VFD.

Beaumont, TX 77704

The 495th meeting of the Sabine-Neches Chiefs Association was called to order by Ed Harris at 10:00 A.M. on July 11, 1990 at the Ramada Inn in Orange.

Ray Williams, on behalf of Freddie Yousts, City of Pinehurst Volunteer Fire Department welcomed the organization and expressed appreciation to the organization and wished all a good, educational meeting.

Invocation was given by Curtis Holden.

SPECIAL REPORTS

Ed Harris reported to the membership that the State Firemen and Fire Marshalls Association of Texas, their annual convention in June, voted to change the physical year from January thru December to July through June. Hence, all organizations and individuals will be receiving dues due notice soon covering the physical year, July 1990 through June 1991. This is a bookkeeping change, but does result, this year, in payment of dues twice in the same year.

Charlie Robbins, representing SAGE Alerting Systems, informed the organization that he was conducting a study of Jefferson County to arrive at the most economical and effective means of community alerting in the event of a major incident. The system is required to interface with community facilities and organizations.

Ed Harris reported that a representative group of interested people will meet at Texas A&M on Monday night, July 30th to discuss the pros and cons of development of a Voluntary Industrial Fire Fighter Certificate. All persons who feel they have definite input to this discussion are invited to attend.

RECEIVED
BMT FIRE DEPT.

JUL 25 1990

Gary Ensign, Lamar University reported that 24 applicants for the position of Lamar University Fire Training Director had been received and that these applicants are now being interviewed. The Fire School Field Advisory Board is assisting with the interview process.

Ed Harris reported that the Industrial Fire Training Board met at the SFFMAT Convention at El Paso in June and reviewed and approved 68 units training programs. The Board will review more at A&M when it meets on Sunday, July 29th. He reported the Chemical Section had developed a formal method of review and was very comfortable with the results obtained.

COMMITTEE REPORTS

✓ The "large line" Fire Pump Hydraulics Seminar conducted in June at the John Gray Institute was discussed. Thirty-seven people attended the seminar. The next seminar is scheduled for November 9, 1990 and will be on "Fire Ground Safety".

All members were informed that Bosses Night this year will be held on December 10 at the B.R.A.D. Club at the Du Pont, Beaumont Works. The speaker for the event is "Cactus" Pryor.

Spill Response - Captain Whiting reported that the Committee appointed to develop a plan concerning spill response has not met, but will in the near future. With the level of activity relative to the oil spill in the Gulf, etc., the group simply had not had time to get together.

✓ There will be a table top exercise at the Holiday Inn in Beaumont on coordinated response of an oil or chemical emergency in the Texas and Louisiana waters. The drill is planned to measure the response of Federal and community representatives. The drill is set for August 22 and 23 with all the morning of the 23rd devoted to critique of events of the 22nd.

Brochure Committee - John Judice reported many equipment lists had been returned and that he was compiling them, but urged those who had not yet responded to do so immediately.

Identification Committee - Robert Bucklin, Firestone, is reviewing the needs and plans for providing. No firm recommendations at this time.

Fire Grounds - D. A. Bruce passed out a hand out on material needed to improve the Rescue Training Project (copy attached). He also stated he needed a complete control loop of any size. Contact him to get the loop picked up if you have one to donate.

Other Items Status:

- Helipad - delivered to school - will be functional by 1991 school.
- Any Instructors who feels his records may be inaccurate is requested to review their record with Stella Cobb - Lamar University.
- Instructor's Roster is full. Anyone desiring to serve as an Instructor should complete a resume and mail it to D. A. Bruce or Pete Shelton.
- The 1991 Lamar University Industrial Fire School is currently scheduled for the week of 5/13/91. (P.S. - the Saturday before the school is a Sabine Neches Chiefs Association work day at the school - every organization is expected to have at least one worker on the field that day.)
- Smoke - Using more LPG and less liquid hydrocarbon during school to reduce smoke.

OTHER BUSINESS - Host Schedule - Remainder of 1990

- | | |
|-------------------|---|
| August 8, 1990 | - Polysar of Orange
RAMADA INN - ORANGE |
| September 5, 1990 | - Boeing Petroleum Service

| October 3, 1990 | - Southern Union Gas
RAMADA INN - PORT ARTHUR |
| November 7, 1990 | - Little Cypress Volunteer Fire Dept.
LOCATION TO BE ANNOUNCED |
| December 5, 1990 | - Unical
LOCATION TO BE ANNOUNCED |
| December 10, 1990 | - BOSSES NIGHT, B. R. A. D. CLUB
DU PONT BEAUMONT WORKS |

PROGRAM - Jessie Broddie, Phillips 66, presented an informational program on the major explosion and fire that occurred at their Houston area site last fall.

The 495th meeting was adjourned at 12 Noon.

GRADY BALDWIN
ACTING SECRETARY

NOTE: The 496th meeting of the SNCA will be hosted by Polysar, Orange Plant, at the Ramada Inn in Orange on Wednesday, August 8, 1990 at 10 A.M.

NOTE: THIS IS THE SECOND WEDNESDAY

GGB:lss
7/20/90

City of Beaumont

July 9, 1990

To Members of the Sabine Neches Chiefs Association:

After discussion with numerous Rescue Training Professionals, we have concluded that the Rescue Project at the Fire Department Training Center needs to be advanced to provide top-quality instruction. The improvements would provide us with a competition-type rescue project, far superior to what we now have. Training will be vastly enriched with these additions and provide a better learning experience for students.

The following materials will be required for the upgrade:

1. 50' high x 10' diameter Reactor Tower with caged ladders and catwalks (multiple openings).
2. Railcar or tank truck for rescue operations with multiple manways and multiple internal baffles.
3. 36" horizontal pipe connecting current vessel to Reactor Tower (approx. 25' to 30' long).
4. Catwalks connecting all three vessels.
5. Ventilation fans on all vessels (attic-fan type with protective screen).
6. Secure storage area for training equipment.

Please consider financing the improvement of this project. Superior training makes every department stronger. Thank you for your commitment to the training facility and your time. I look forward to your reply.

Sincerely,
BEAUMONT FIRE DEPARTMENT

C. A. "Pete" Shelton
Fire Chief

PRESIDENT

Beaumont, Tx. 77704

The 496th meeting of the Sabine-Neches Chiefs Association was called to order by Ed Harris at 10:00 a.m. on August 8, 1990 at the Ramada Inn in Orange, Texas.

The invocation was given by Curtis Holden.

Ed Harris introduced Duke Green, with Polysar, who welcomed the group. Duke expressed his personal appreciation and that of Polysar for the role that the SNCA plays in fire safety for the Golden Triangle area.

Self introductions were made by all those present.

Mike Lovelady reported that "Cactus" Pryor will not be the speaker on bosses night. If you have a suggestion for the bosses night speaker please contact Mike.

The minutes from the 495th SNCA meeting were read and approved.

SPECIAL REPORTS

Bob Wood reported on the Texas A&M industrial fire school. Bob stated that approximately 1200 students attended the 1990 school. He also pointed out that the level of expertise of the average student was getting better each year. Heat stress was a major problem this year just as it has been in the past years. Bob pointed out that Ken Broussard, a SNCA member, had received the Lauderback award from Texas A&M for service to the public fire service.

There will be a portable fire pump demonstration on 8-24-90 at 1:00 p.m. at the Texaco Chemical Port Neches plant. Entrance to the demonstration is a gate on the West side of Highway 366 just North of the construction area. Signs will be posted at the gate. Everyone is welcome.

Special thanks is due Texaco Chemical and Chevron for repairing and maintaining the SNCA portable fire pumps.

SEP 5 1990

Ed Harris reported on a meeting held during the A&M industrial school to discuss Industrial Fire Brigade certification. He reported that a lot of people participated and expressed many valid concerns about the needs surrounding training of industrial fire brigades. A task team of 14 individuals from throughout Texas was appointed to evaluate the situation and forward the results of their evaluation to the Texas Industrial Fire Training Board.

Dr. Gary Ensign reported that an effort is underway to get one of the federal spill response centers located in this area. He explained the concept and encouraged everyone to contact their congressmen about this subject.

Dr. Ensign also, announced that Lamar would conduct a Fire Field Safety Seminar on 11-9-90. Scott Kerwood from the Tulsa Fire Department will be the instructor.

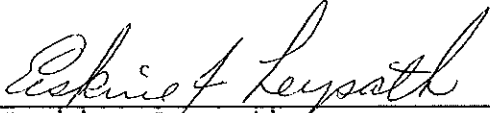

Robert Bucklin is working out the details for SNCA I.D. card distribution.

Pat Shelton reported that work is underway on 2 fire field projects. The helicopter landing pad is under construction. The fuel recovery system is being cleaned and refurbished.

Ed Harris reported that the Texas Industrial Fire Training Board now has 87 participating members. Past members will be contacted in an effort to increase membership.

Recent emergencies were discussed.

Greg Bostwick, from Channel 6, presented a program on weather reporting with emphasis on hurricane tracking predictions. He explained the problems associated with predicting the landfall area for hurricanes. The program was very interesting and thought provoking.

Erskine Leysath
Secretary

NOTE: The 497th meeting of the SNCA will be hosted by Boeing Petroleum Service at the Ramada Inn in Port Arthur on September 5, 1990.

PRESIDENT

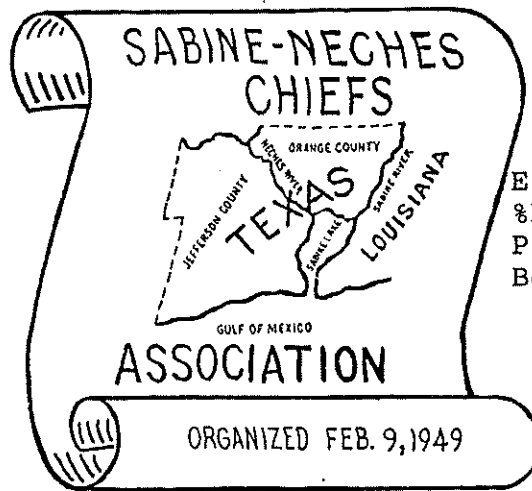

Edward Harris, Jr.

D. A. Bruce

SECRETARY TREASURER

E. J. Leysath

MAILING ADDRESS:

E. I. DU PONT DE NEMOURS & CO.
%Erskine J. Leysath
P. O. Box 3269
Beaumont, TX. 77704

The 497th meeting of the Sabine-Neches Chiefs Association was called to order by Ed Harris at 10:00 A.M., on September 5, 1990, at the Ramada Inn in Port Arthur, Texas. (List of attendees attached)

Invocation was given by Curtis Holden.

David Mc Millian representing host organization, Boeing Petroleum addressed the group, expressing appreciation for the organization and their role in the organization. He further stated that the value of the mutual aid effort was recognized by the Department of Energy because their direction had been to seek out and become involved in the local Mutual Aid effort. Later in the meeting Carl Anderson, Fire Chief for Boeing Petroleum from New Orleans was introduced and expressed his appreciation.

Self introductions were made by all those present.

The minutes of the 496th meeting were read and approved.

Ed Harris and Dr. Gary Ensign, Lamar University, reported that efforts had been made, with written support by some plant managers with letters to Congressmen, to establish a spill response center in this area. Dr. Ensign reported that a decision is expected by the middle of the week of September 10th, 1990.

SPECIAL ANNOUNCEMENTS

Dr. Ensign reported that a seminar on firefighters safety will be conducted on Friday, November 9. The program is directed to volunteer and municipal personnel but could also be tailored to industrial needs. (Brochure attached)

Ed Harris reported that a task force is considering issues around the need for and advisability of a certification program for Industrial Fire Fighters. The task group leans toward requiring certification, but the group is developing a questionnaire to industry to try to determine what would be needed. The questionnaire will go to NPRA, TCC and API members.

SEP 25 1990

Lester Crooks reported on the success and problems of the "Large Volume Pumps" test that was conducted last month. The need for further updates of portable pump capability and means of deployment and principles of use become apparent during the test. He reported that by year end, pumping capability of 10,000 - 15,000 gpm would be available and 25,000 feet of 5" hose on hose trailers would be available also. Lester indicated that another "drill" could and should be conducted in the spring of 1991. Lester also expressed appreciation to the Red Cross for providing refreshments during the test, that handling hose was hot and thirst provoking work.

Dr. Gary Ensign announced that John Hubacek, from Texas A&M is new Director of the Lamar Industrial Fire School.

Attached to the minutes is a brochure concerning a seminar on "Critical Incident Stress Debriefing For Emergency Services Personnel" to be held November 8th, 9th, and 10th at the Beaumont Civic Center.

COMMITTEE REPORTS

SPILL RESPONSES - Capt. Whiting reported that a drill had reflected a lot of needs on water front response. A Committee, Chaired by Capt. Whiting is working on a questionnaire to determine the water front response capability of the SNCA. More details will be developed when Capt. Whiting is less involved in the logistics of the Persian Gulf Military Response.

FIRE TRAINING FIELD - D. A. Bruce reported that conditions are good with some general work in progress. Dennis reported the oil (fuel) reclamation program had worked so well that we now had an environmental problem of disposing of the sludge which is non-burnable. Members of the organization were requested to assist in developing correct method of disposing of the sludge.

Recent emergencies were discussed.

Captain Whiting presented a very interesting review of the event and actions to extinguish the fire and contain the spill associated with the explosion and fire on the oil tanker, Mega Borg off the Galveston coast. He presented some non-official views of the events and some lessons learned.

The meeting adjourned at 12:00 noon.

GRADY BALDWIN
ACTING SECRETARY

NOTE: The 498th meeting of the SNCA will be hosted by Southern Union Gas at the Ramada Inn in Port Arthur at 10:00 A.M. on Wednesday, October 3rd, 1990.

**SABINE NECHES CHIEFS ASSOCIATION
IN COOPERATION WITH
LAMAR UNIVERSITY INDUSTRIAL FIRE DIVISION**

FRIDAY, NOVEMBER 9TH, 1990

**FIREFIGHTER SAFETY
WORKSHOP**

This 6-hour intensive workshop is presented to provide knowledge of firefighting safety to volunteers, municipal, and industrial firefighters. The topics covered will include:

- | | |
|------------------------|--|
| 1. Fire Ground Safety | 5. ICS |
| 2. Station Safety | 6. Federal Laws, Regulations & NFPA 1500 |
| 3. Protective Clothing | 7. Equipment Safety |
| 4. SCBA's | 8. Hazardous Materials |

INSTRUCTOR: Scott Kerwood, Hazardous Materials and Safety Officer,
City of Tulsa Fire Department

Scott earned his Bachelor of Science Degree in Fire Protection from Oklahoma State University and has been a fire training instructor at Texas A&M University, Lamar University, the City of Beaumont Fire Department, the National Fire Academy, and Oklahoma State University.

COST: The cost of the program is \$20 per student. This fee includes course handouts and instruction. The fee does not include lunch.

LOCATION: Lamar University-Beaumont College of Technical Arts
Beeson Building Auditorium.

SCHEDULE: 8:30 - 9:00 a.m.	Student Check In
9:00 - 12:00 noon	Instruction
12:00 - 1:00 p.m.	Lunch
1:00 - 4:00 p.m.	Instruction

For more information, call 409/880-2233

REGISTRATION FORM: Complete form, detach and mail with \$20 registration fee
(make checks payable to Lamar University):

About the Instructor:

Patricia L. Tritt is a registered nurse who is currently the director of pre-hospital services at the Swedish Medical Center in Englewood, Colorado. She graduated Summa Cum Laude with a Bachelor of Science degree in Nursing from The Metropolitan State College in Denver, and is also licensed as a Critical Care Nurse Practitioner by The American College of Surgeons. Ms. Tritt currently is the state coordinator of the Trauma Life Support Course, the program coordinator of the Mayflower Critical Incident Stress Debriefing Team, the coordinator of the Colorado Critical Incident Stress Debriefing Team Network, the vice-chairman of the Colorado Paramedic Training and Education Committee, and an instructor in Emergency Nurses Association Trauma Nurse Core Course, Pediatric Advanced Life Support Course and Advanced Cardiac Life Support Course. She is a member of the Society for Traumatic Stress Studies, the chairman of The Rocky Mountain Conference on Emergency Medicine and Nursing and Lectures on Stress, Critical Incident Stress, Critical Incident Stress Debriefing Team Training, EMS Systems, and EMS issues. These are just a very few of Ms. Tritt's affiliations and activities. She also has the following publications:
The Paramedic Review Manual,
Dysrhythmia Analysis and Management, Principles of EMS Systems, and Introduction to Paramedic Practice.

Ms. Tritt studied under and has worked extensively with Dr. Jeffrey Mitchell who is the leading authority in the field of Critical Incident Stress.

CISD Team Training Schedule

Thursday, November 8, 1990

- 8:00 a.m.-Noon
Introduction
The Stress Response
Critical Incident Stress
Lunch
- Noon-1:00 p.m.
1:00 p.m.-5:00 p.m.
Characteristics of Emergency Workers
Post Traumatic Stress Disorder
Special Applications/Shooting Incidents
Group Exercise
Free Bar-B-Que
"Get Down Browns"
Holiday Inn Midtown
- 7:00 p.m.-

Friday, November 9, 1990

- 8:00 a.m.-Noon
Types of Interventions
Development and Administration of a CISD Team
Considerations in Setting up a Debriefing
How to Conduct a Debriefing
Lunch
- Noon-1:00 p.m.
1:00 p.m.-5:00 p.m.
Lessons Learned
Other Interventions and Strategies
How to Maintain a Team
Wrap-up/Questions

Saturday, November 10, 1990

This session will be devoted to the actual formation of CISD Teams.

Those attending will begin the process of team formation so that they may return to their community with either a nucleus of team members, or the ability to organize a response team.. This day is optional and only those genuinely interested in being a member of a response team should attend.

Critical Incidents

The Emergency Services Worker is by virtue of his / her profession, faced with certain events that have the potential to create a significant stress reaction. Dr. Jeffrey Mitchell has identified these events as "critical incidents." He defines a critical incident as "any situation faced by emergency services personnel that causes them to experience unusually strong emotional reactions which have the potential to interfere with their ability to function either at the scene or later." Certain events have been demonstrated to be particularly distressing for emergency services personnel. All that is necessary is that the incident, regardless of type, generates unusually strong feelings in the emergency worker. Research has indicated that there are over 1000 emergency service related stressors and that almost 90% of all emergency service personnel are affected at least once by critical incident stress during their careers. Often many emergency service workers elect to cope with the stressors of their job by adopting coping mechanisms that suppress emotions and reactions.

Critical Incident Stress Debriefing can defuse the potential for post-traumatic stress disorder and other stress symptoms experienced by emergency services personnel.

Continuing Education Credits For:

- Nurses
- Law Enforcement Officers
- Mental Health Personnel
- Fire Fighters
- EMT's and Paramedics

NOV 20 1990

The 499th meeting of the Sabine-Neches Chiefs Association was called to order by President Ed Harris at 10:00 A.M., on November 7, 1990, at the Ramada Inn in Orange, Texas. (List of attendees attached.)

Invocation was given by Curtis Holden.

Harold Burleigh introduced Mr. Joe Parkhurst, President of the Orange County Fire District #3 Volunteer Fire Department, who hosted and welcomed the organization. He reiterated that he and the Department were happy to be a part of the Sabine-Neches Chiefs Association and were happy to host this meeting.

Self introductions were made by all those present.

The minutes of the 498th meeting were read and approved. It was noted that the amount tendered by Vallen Safety Supply represented their dues payment for the year.

SNCA BOARD OF DIRECTORS MEETING: The Board met on October 22 to consider numerous items of business. Two requests for membership, one from Gulf Copper in Port Arthur and the other one from Bethlehem Dry Docks, were considered by the board. In fairness to the "small businesses", the board recommends a negative vote at the next meeting because the units would gain nothing that they already do not now have. It would also cause a substantial cost to them for membership and hosting of the monthly meeting. It is to be understood that a negative vote would in no way reduce the assistance to these businesses upon request; but, no benefit to SNCA could be derived from the small businesses, if needed.

Ed reported that a new committee was approved and appointed by the Board to develop a plan for recognizing all instructors and initiating and determine an "Instructor Of The Year" Award for the outstanding instructor at the Annual

Industrial-Municipal Fire School to be known as the "Bob Whitehead" Award to be presented at the Instructors Appreciation Reception each year. The Committee, Chaired by Ken Broussard will develop the plan and present it to the Constitution and By-Laws Committee for general membership action.

COMMITTEE REPORTS: Bosses Night - various committees reported that all was ready. Bill Roe prompted all concerned to get the list of their organization attendees to him promptly so name tags could be made AND an accurate count determined for food supply, etc. Sidney Elliot underscored that reminder because he has to arrive at a guaranteed number of dinners to be paid for, show or no show. Jerry Wimberley reported refreshments will be ready as always and Ed Harris reported that Mike Lovelady definitely had a speaker. So, all is ready for **MONDAY NIGHT, DECEMBER 10TH AT THE BRAD CLUB, DU PONT BEAUMONT WORKS.**

Ed Harris reminded all concerned to encourage moderation in refreshments because of the hazards of night driving and effects of indulgence. He reminded all to have a "designated driver" for the evening.

EDUCATION COMMITTEE: John Hubacek reported that Fire Fighters Safety Workshop would be held Friday, November 9, 1990. Registration indicate this will be well attended.

John Hubacek reported that early registration for the Annual Fire School was encouraging with some new organizations already registered. (See Attachment for Fire School Brochure.)

It was announced that a "Drillers Lunch" featuring Red Adair to commemorate the 90th Anniversary of the Lucas Gusher will be held at the Beaumont Hilton at 1:00 P.M. on Thursday, January 10, 1991. Cost for the lunch will be \$15.00 per person or \$150.00 per Corporate Table of 8. (See Attachment)

EMERGENCY SPILL PROGRAM: Captain Whiting, USCG, reported that the committee had met on November 6 and developed a report form that all organizations in the SNCA were requested to complete and forward to John Judice at Fina Oil and Chemical Company, Port Arthur, Texas by year end. (Questionnaire attached - make copies as necessary to complete and forward.) Captain Whiting urged that the right people get the questionnaire to answer. Ed Harris urged all organizations in SNCA to expedite completion of the form and return it since this committee is an authorized committee of the SNCA.

SPECIAL ANNOUNCEMENT

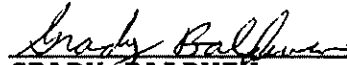

Norman Rucker and Will Lyons announced that a traumatology Conference will be held again this year at the Holiday Inn Holidome on March 1 & 2, 1991. They were seeking support and/or donations to assist in conducting the conference.

Joel Hart, Labelle-Fannett Volunteer Fire Department invited all to inspect the new fire truck their organization had purchased and had on display at the meeting. He further cautioned all departments to be careful that members rigorously follow the practice of utilizing all necessary protective equipment regardless of the urgency for action. He emphasized that on assistance response the responsible Chief was responsible for suppression action, but each individual was responsible for proper protection.

State Industrial Fire Training Board - Ed Harris urged all Industrial Organizations to respond to the questionnaire sponsored by the Board and the State Firemen and Fire Marshals Association of Texas concerning possibility or advisability of a certification program for Industrial Fire Brigade Personnel.

PROGRAM: Ed Harris introduced Jolei Bayard and Jody Bailey, representatives of the Jefferson County South County Red Cross, who presented an excellent over-view of the organization and responsibilities of the Red Cross.

The meeting adjourned at 12:00 noon.

The 498th meeting of the Sabine-Neches Chiefs Association was called to order by Ed Harris at 10:00 A.M., on October 3, 1990, at the Ramada Inn in Port Arthur, Texas. (List of attendees attached)

Invocation was given by Father Dunn Golasinski.

Bill Roe representing host organization, Southern Union Gas, addressed the group, expressing appreciation for the organization and their role in the organization for 18 years. He introduced Russell Buss, Regional Vice President of Area and Galveston. He discussed how he was impressed with the safe working and planning of the organization, the team work demonstrated by all, and pleased to be a part of this outstanding group of people. Thank you SNCA for what you are doing in the community.

Self introductions were made by all those present.

The minutes of the 497th meeting were read and approved.

There were no bills. Two requests for membership were submitted: Gulf Copper Manufacturing and Bethlehem Dry Docks. October 22nd the Board will meet to take action on these requests.

This area lost out on the spill response center. Letter from Bill Weiblinger requesting update list of experts on chemical spills was passed around for revision.

Louis Miller of the Port Arthur Fire Department, stated that a small scale Qualified Disaster Drill will take place on Saturday, October 13, 1990. The drill will start at Central Mall just south of the parking area. The City of Port Arthur, Chevron, etc. will participate. Also in observation of "Fire Prevention Week", there will be two presentations of the Fire Prevention Display and show. They will have tents to protect the public from sun (or rain).

OCT 18 1990

Ed Harris mentioned that September 16-22 was Emergency Medical Services Week. Mid-County Hospital opened a new wing to provide quality emergency medical care services and invited visitors to tour their facility.

COMMITTEE REPORTS

EDUCATION COMMITTEE - Dr. Gary Ensign introduced John Hubacek, the new Director of the Industrial Training School at Lamar. John Hubacek stated he is looking forward to working with the training and rescue program. His office will be on the fire field to centralize and provide better service. They are adding new telephone lines, and will also have a FAX machine. They plan to hire two or three full time instructors in the near future.

Firefighter Safety Workshop will be held, Friday, November 9th, 1990, at the Beeson Building Auditorium at Lamar University (registration form attached). To date four municipal and twenty two industry employees have signed up for the course.

Brochures for the 22nd Annual Lamar University Firefighters Training School, for municipal and industrial fire protection to be held May 13-17, 1991, should be out in two weeks. Plans are under way to improve quality, and variety of field evolutions. Also discussed was the rising cost of fuel, food, supplies and other essentials that has forced the school rates on fire training services to increase. Sheets explaining the old and new system were made available and are attached.

Ed Harris reported that the fuel reclamation project was working too good. They are having trouble disposing of the sludge product that remains.

BROCHURE COMMITTEE - John Judice has received equipment lists, but has not received any spill control equipment available to add to the inventory list for use by SNCA.

BOSES NIGHT BANQUET - Bill Roe reported the banquet will be held Monday, December 10th, at the BRAD Club at 6:30 P.M. He asked that everyone try to get signature sheets in early. The committee is in the process of trying to get an after dinner speaker. It was mentioned that Lamar had a good speaker and Dr. Ensign will help find one.

SPECIAL ANNOUNCEMENT - Richard Hanley reported that the A.S.S.E. meetings will be held the third Wednesday of each month from 10:00 A.M. until 12:00 noon at Wyatt's Cafeteria on Gulfway Drive. Cost of the meal is \$4.59. The next meeting will be October 17th.

Summary of answers to the Fire Fighter's Certification questionnaire will be sent out next week.

Dan White representing Vallen Safety Supply Company presented a check for \$200.00 to the organization.

Glen Durham of Williams Boots & Coots, presented a video tape of a ship fire on the Sagnaw River out of Bay City, Michigan which they were called on to fight. The tape was made by the Coast Guard. The fire was almost impossible to extinguish from "off" ship. The ship was 400 feet long and had eight compartments. They had to board the ship and put dry chemical on the vent fires.

Bill Roe of Southern Union Gas presented a program on alternate fuel for vehicles. In response to the Federal Clean Air Act and also the State Legislature, some fleets and fleet owners are to convert vehicles to alternate fuel or compressed natural gas (CNG). Private fleets should convert approximately 30 per cent of all their trucks to alternate fuel by 1994. There will soon be service outlets and service stations. A video was shown on the testing of the CNG cylinders that are being installed in automobiles and trucks. On display was several vehicles that had been converted.

The meeting adjourned at 12:00 noon.

Due to rising cost of fuel, food, supplies and other essentials Lamar University Industrial Fire Training is forced to increase its rates on fire training effective September 1, 1989.

Charges will be based on 20 or more students. As this is what our vendors base their charges to Lamar on.

The new rates will be as follows:

8 hour Fire Fighting Class	- \$250.00 per student for 20 or more
	5000.00 flat rate for less than 20
	225.00 per student for 35 or more
12 hour Fire Fighting Class	- \$325.00 per student for 20 or more,
	6000.00 flat rate for less than 20
	300.00 per student for 35 or more
16 hour Fire Fighting Class	- \$375.00 per student for 20 or more
	7500.00 flat rate for less than 20
	350.00 per student for 35 or more
20 hour Class	- \$425.00 per student for 20 or more
4 hours Classroom	8500.00 flat rate for less than 20
16 hours Fire Fighting	400.00 per student for 35 or more
32 hour Class	- \$475.00 per student for 20 or more
12 hours Classroom	9500.00 flat rate for less than 20

September 10, 1990

Dear Participant:

We are planning a small scale Qualified Disaster Drill to take place on Saturday, October 13, 1990. This drill will start at Central Mall just south of the parking area. The victims will be transported by both air and ground units to the hospital.

A meeting for all participants has been scheduled for Tuesday, September 25, 1990 at 10:00 A.M. The meeting location will be at the Civic Center in Port Arthur, Texas.

It is vital that all participants be at this meeting so that the drill will be understood by everyone. This drill will be viewed by the public at the close of the Fire Prevention Display and Show.

Please call me at 983-8739 to confirm that you will be able to participate and attend the meeting of September 25, 1990.

We appreciate your assistance and interest in this matter.

Respectfully,

Mark E. Mulliner
Ass't Fire Marshal

Dear Mr. Ensign:

Thank you for your recent letter providing us with information on the Annual Firefighters Training School.

On behalf of the State Firemen's and Fire Marshals' Association of Texas and the Texas Industrial Fire Training Board, we would like to formally recognize the University's Annual Industrial Firefighters Training School and the many industrial fire training programs offered at your facility.

Lamar University's commitment to professionalism and state of the art training in the fire service is highly commended not only in Texas but throughout the nation.

If we can be of assistance to you, please call upon us.

Sincerely,

W. F. Windy Knost

Lamar University is an equal opportunity/affirmative action educational institution that does not discriminate on the basis of race, color, sex, religion, age, handicap, or national origin.

22nd ANNUAL LAMAR UNIVERSITY FIREFIGHTERS TRAINING SCHOOL

Public Services and Continuing Education at Lamar University and the Sabine Neches Chiefs Association announce the 22nd Annual Firefighters Training School to be held May 13-17, 1991, in Beaumont, Texas.

The Lamar University Firefighters Training School is one of four schools in the nation that has been recognized by the United States Occupational Safety and Health Administration (OSHA) to train personnel in fighting chemical and hydrocarbon fires. The school is designed for municipal, industrial and volunteer fire departments, as well as safety directors, supervisors, managers, fire and safety coordinators, members of fire brigades and others interested in industrial fire safety.

Professional instructors will provide uniform training in fire brigade operation through conference discussions and hands-on experience. Discussions will focus on such topics as hazardous materials, personal protective equipment, industrial plant fire protection and other fire safety concerns. At the fire training grounds, students will have the option of participating in fire fighting, industrial rescue or hazardous materials.

FIRE FIELD EVOLUTION - Limit 475

Hose & Nozzle Evolutions
Foam Fire Fighting
