The 501st meeting of the Sabine Neches Chiefs Association was called to order by Ed Harris, president, at 10:00 a.m. on January 2, 1991, at the Ramada Inn in Port Arthur, Texas.

The invocation was given by Curtis Holden.

Ed Harris introduced Sterling Keith from the host organization, Colonial Pipeline Company. Mr. Keith welcomed the group and invited anyone to visit the Colonial facilities.

The minutes from the 500th meeting were read and approved.

Self introductions were made.

A motion was made and approved to pay the food and refreshment bills from Bosses Night. The food was \$1,312.50 and refreshments were \$306.76. A total of 170 people attended the Bosses Night banquet.

The denial of Gulf Copper for membership in the association was explained to the membership. Ed Harris sent a letter to Gulf Copper explaining the decision and thanking them for their interest.

Two new requests for association membership were read and referred to the Board of Directors. The applicants are Occupational Health Care Systems and Sabine Towing.

The nominating committee presented a list of nominees for the Board of Directors (see attached letter from C. A. Shelton). A motion was made and approved to keep the present board members in place until the election process is complete.

Ed Harris led a discussion about the needs and/or requirements for the association to adopt an Incident Command System. The Education Committee was asked to look into this subject and bring a report to the association in a timely manner.

All members were encouraged to enroll people in the annual school as soon as possible. There are already 28 people signed up.

The 1991 Traumatology Conference is scheduled for March 1 and 2 at the Holiday Inn in Beaumont. The cost is \$45.00.

FILED
6 1991

The 1991 Membership Dues Statement is attached.

The National Weather Service is planning to close the Jefferson County weather office. A motion was made and approved to have Ed Harris write a letter expressing the real needs that the emergency response community has for local weather offices. Ed will send this letter (on SNCA letterhead) to our elected federal officials.

The Port Neches Fire Department is sponsoring an EPA First Responder course on February 7 and 8 at the Hebert Library in Port Neches. Contact Ken Doise for more information.

Pete Shelton reported on a recent visit that he made to the Chem Trec national headquarters in Washington, D.C. He reported that it was a very impressive organization and encouraged everyone to visit there if they had a chance.

Recent emergencies were discussed.

Ed Harris introduced Sterling Keith from Colonial Pipeline who presented a very interesting program on pipeline operations.

The meeting was adjourned at 12:00 noon.

Erskine J. Leysath
Secretary

Note: The 502nd meeting of the SNCA will be hosted by James River Corp. on February 6, 1991 at the Ramada Inn in Orange.

The 502nd meeting of the Sabine Neches Chiefs Association was called to order by Ed Harris, President, at 10:00 a.m. on February 6, 1991 at the Ramada Inn in Orange, Tx.

The invocation was given by Dan White.

Ed Harris introduced J. W. Evans from the host organization, James River Corporation. Mr. Evans welcomed the group and explained what the basic operation of the James River Corporation was like. He also outlined the emergency response capabilities of his company.

Self introductions were made.

The minutes from the 501st meeting were read and approved.

The nominees for the Board of Directors were read for the second time. (see attached list) Nominations from the floor will be accepted during the March meeting. The Board of Directors election will be held during the March meeting.

Ed Harris did write a letter to our elected officials concerning the proposed closing of the National Weather Service office in Jefferson County.

Dick Nugent reported on the current status of the SAGE emergency alerting system that has been proposed for Jefferson County. There are still a few details to be worked out, but Dick reported that the system had been accepted by industrial and municipal leaders in the area.

David Morrison with Boeing Petroleum asked if SNCA members would respond to their site in Hackberry, La, if requested. He explained that the need would only arise if the intercoastal canal bridge South of Lake Charles was out of service at the time of an emergency. The membership agreed that SNCA would respond if requested.

MAR 6 1991

Melvin Schmidt led a discussion about a recent fire at the Chevron plant, and thanked every organization that responded.

Dr. Gary Ensign presented some education committee ideas on ways to address the incident command system needs of the SNCA. He gave us the dates of some schools that are already scheduled and agreed to develop more alternatives.

The 9th Annual Traumatology Conference is scheduled for March 1st and 2nd.

The annual fire school has 70 students already enrolled. Try to make your reservations as early as possible. (see attached registration form)

D. A. Bruce reminded everyone (nicely this time) that they were invited to attend a work day at the training ground on May 11, 1991. D. A. also reported on the work that is being performed at the training field.

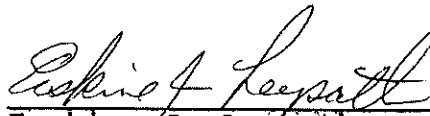

Vidor Fire District #2 has a new radio system. John Paul Feeley will provide frequencies to anyone who needs them.

Butch England reported that the National Maritime Reserve Fleet in Beaumont was interested in joining the SNCA. They have 2 fireboats with crews available for use at all times.

Recent emergencies were discussed.

Mike Lovelady introduced Gerald R. Brown who presented a very interesting program on bomb threats and terrorist activities.

The meeting was adjourned at 12:00 noon.

Erskine J. Leysath
Secretary

Note: The next meeting will be hosted by Merichem on March 6, 1991 at the Holiday Inn on 11th Street in Beaumont.

INDUSTRIAL FIRE TRAINING DIVISION**

In Cooperation With

SABINE NECHES CHIEFS ASSOCIATION

Presents

**INCIDENT COMMAND PLANNING
AND
RESOURCE MANAGEMENT SEMINAR**

MARCH 14, 1991

This 4-hour intensive overview is presented to provide knowledge on Incident Command System planning and resource management. Both government regulations (29 CFR 1910.120) and a national consensus standard (NFPA 1500) require the use of an ICS during emergency responses. The Sabine Neches Chiefs Association is cooperating with Lamar University to promote among SNCA member (industrial, municipal and volunteer) personnel familiarity with ICS, SNCA resources, and various SNCA member planned approaches to emergency incidents.

This program will be beneficial for those people who have the following roles to play in an incident. These include:

Communications	Operations	Damage Assessment
Safety	Management	Media Relations
Staging	Finance	Incident Commander
Liaison	Logistics	Planning

Why these people should attend:

- > To build toward a common ICS base for providing mutual aid assistance.
- > To know how to get what you need and when you need it in an incident.
- > To know what resources are available in the area.
- > To learn what ICS are locally in use.
- > To promote better communication and interaction between municipal and industrial emergency response groups.

INCIDENT COMMAND PLANNING AND RESOURCE MANAGEMENT SEMINAR

March 14, 1991

SEMINAR LOCATION: Lamar University-Beaumont Campus, Beeson Building Auditorium

REGISTRATION BY MAIL, PHONE OR FAX

To register by mail: Complete the registration form included in this brochure and return to:

22nd Annual Fire School
Public Services & Continuing Education
Lamar University-Beaumont
P. O. Box 10008
Beaumont, TX 77710

To register by phone: Call Stella Cobb at 409/880-8440

To register by FAX: Complete the registration form included in this brochure and FAX to 409/880-8683

FOR FURTHER INFORMATION, CONTACT:

Stella Cobb Phone 409/880-8440
Lamar University-Beaumont FAX 409/880-8683

For information about Lamar University-Beaumont's year-round training in industrial firefighting, fire brigade leadership training and hazardous materials training, contact John Hubacek, Director of Industrial Fire Training, at 409/832-5881.

IMPORTANT INFORMATION

READ CAREFULLY TO REPORT TO PROPER LOCATION ON FIRST DAY!

FIRE FIELD EVOLUTION STUDENTS

Fire Field Evolution is divided into two segments: field work, conducted at the Fire Training Grounds, and conference sessions, conducted at the John Gray Institute and the Montagne Center, both located on the campus of Lamar University-Beaumont. (See map for location of these sites.) Information packets will be mailed to students as registrations are received; your first day reporting location will be designated in your packet. Personnel from each company or organization will be trained together at the same site each day. You should report at your designated first day site on Monday, May 13, 1991, at 7:30 a.m. You should bring protective firefighting clothing and gear as follows:

- Firefighters helmet with face shield and chin strap; earflaps or hood recommended
- Knee-length firefighter's coat with vapor liner (no rubber or plastic) and 3/4 length boots
- Short coat and bunker pants
- Gloves: cotten canvas or Nomex type (no rubber or plastic)
- Students enrolled in courses requiring the use of SCBAs will be required to comply with the following policy:
Participants' facial hair must meet OSHA requirements for wearing SCBAs. Beards or long sideburns in the seal may cause seal failure. Students not complying will not be allowed to participate in exercises requiring the use of SCBAs.
NOTE: Suitable clothing for hard work is mandatory, i.e., pants that touch the top of shoes and shirts with sleeves. No tee/tank tops or shorts will be allowed.

INDUSTRIAL RESCUE STUDENTS

Please report to the Fire Training Grounds on Monday, May 13, 1991, at 7:30 a.m. You will need to bring the following equipment: hard hat, eye protection, heavy work gloves, sturdy shoes or boots, bunker gear, rain protection gear and a small notebook with pencil/pen.

HAZARDOUS MATERIALS STUDENTS

Please report to the Fire Training Grounds on Monday, May 13, 1991, at 7:30 a.m. Bring notebook, pencil/pen and hard hat.

ALL TRAINING STUDENTS

All students will attend the Friday morning conference session held at the Montagne Center at 8:00 a.m. The map in this brochure is for your convenience in locating training and meeting locations and hotel/motel accommodations.

The City of Beaumont, Lamar University-Beaumont and the Fire Training Grounds cannot, by law, assume any liability for accidents and/or injuries sustained by students and other personnel participating in the annual fire school. A First Aid Station will be operated by volunteer registered nurses through the American Red Cross of Beaumont at the request of Lamar University-Beaumont.

The 503rd meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on March 6, 1991 at the Holiday Inn on 11th Street in Beaumont, Texas.

The invocation was given by Curtis Holder.

Ed Harris introduced Jack Flynn from the host organization, Merichem. Jack then introduced the site superintendent, Greg McKnight who explained Merichem's acquisition of the old Independent Refining site in Winnie.

Self introductions were made.

The minutes of the 502nd meeting were read and approved with the following changes:

1. The date of the workday before the annual fire school will be May 4, 1991.
2. David McMillian was the Boeing Petroleum representative at the last meeting not David Morrison.
3. The SNCA members will respond to the Hackberry, LA site if requested.

The nominations for the Board of Directors were read for the third time. There were no nominations from the floor. There was a motion and a second to elect the nominees by acclamation. The motion carried by a unanimous vote. The new directors are: C. A. Shelton, representing the fire service, Charles Benefield, representing law enforcement, and Bill Roe, representing industry. There was a motion to retain the current officers; Ed Harris, D. A. Bruce, and Erskine Leysath for the rest of 1991, the motion carried.

Ed Harris gave a report on the last Board of Directors meeting.

MAR 27 1991

The proposal to issue an award to an outstanding fire school instructor has been tabled until a formal plan can be presented to the Fire School Board for their consideration.

There were two requests for membership. The Board recommended Sabine Towing for full membership. There will be a vote on their application when their application is read for the second time at the April meeting. The Board tabled the application of Occupational Health System, Inc. for an associate membership until an opening occurs. When an opening for associate membership occurs the Board will fill the slot from those applicants that are still interested.

The Board had received a request to accept some foam concentrate on consignment. The Board decided not to accept this opportunity at this time.

A member of the SNCA, who is a CPA, has volunteered to help with the annual audits. Ed Harris and Bill Roe will decide how to best use this valuable help.

Representatives from Dooley Tackaberry, Reid Riggins and Tom May, donated six ISI Magnum 30 minute SCBA units to Lamar for use at the Fire School.

Stella Cobb reported that 143 students are registered for the fire school. This includes students from three United States Air Force bases.

The pump seal project at the training field is almost complete.

Beaumont Fire Dept. brought their ventilation truck to the meeting. All attendees were invited to visit and observe this unique piece of equipment. It will move 2000 SCFM of air and addition of a water mist will lower the air temperature at least 10 degrees F.

Ed Harris reviewed the Texas Industrial Fire Training Board's finding and recommendations concerning certification of industrial fire fighters. The responses to the questionnaires mailed to industrial organizations across the state indicates that most of them prefer some type of certification program. The TIFTB will probably recommend a program for industry that includes 72 hours of initial training and requires re-certification every 5 years. The TCC, NPRI, and TSA plan to review these recommendations for possible adoption.

Recent emergencies were discussed.

Gary Sanders with Neches Marine advised the group that they had a boat capable of pumping 10,600 GPM of fire water at 150 pounds per square inch available in Port Arthur that would respond to emergencies if requested.

Pat Shelton reported on a flash over training device that he had seen. He indicated that BFD is considering the purchase of this training device for use at the training ground.

Captain Whiting with the USCG is leaving Port Arthur. He will be replaced by Jim Robinson.

Final negotiations are in progress to install the SAGE alerting system in Jefferson County.

The 911 telephone system is scheduled for installation this summer and should be operational by November, 1991. This system will cover Hardin, Jefferson, and Orange Counties.

There are six 1-week railroad emergency response schools scheduled this year. Contact Pat Shelton with BFD for more information.

Melvin Schmidt reported that the Chevron "Safety Train" will be available to local industry on Monday 4-15-91. There will be a morning and an afternoon session. Contact Paul Landry at 985-1663 for details.

Dooley Tackaberry will provide a fish fry for the fire school instructors at 6:30 P.M. on May 15, 1991.

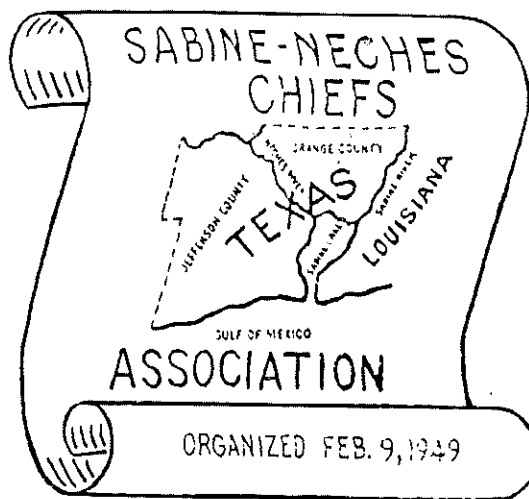

Harold Burleigh reported that the Fire Field Advisory Board is making plans to install a spare fire pump at the training grounds.

There will be a Water Front Drill and demonstration in South County on April 9 & 10 involving the "Gulf Protector".

Mike Lovelady introduced Enos Cabell from the Houston Astros who enlightened everyone present about how major league baseball works today. John Williams was the winner of the drawing for a pair of Astro tickets.

Erskine Leysath
Secretary

Note: The 504th meeting of the SNCA will be hosted by the Orange County Office of Emergency Management on April 3, 1991 at the Ramada Inn in Orange at 10:00 AM.

PRESIDENT

Ed Harris

VICE PRESIDENT

D. A. Bruce

SECRETARY TREASURER

E. J. Leysath

The 504th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on April 3, 1991 at the Ramada Inn in Orange, Texas.

The invocation was given by Dan White.

Ed Harris introduced Mary Frazier from the host organization, Orange County Emergency Management. Mary introduced the Orange County Judge John McDonald, who welcomed the association and expressed his appreciation.

Self introductions were made.

There was a special announcement to inform everyone that Hugh Short from Mobil Oil was retiring effective April 3, 1991.

The minutes from the 503rd meeting were read and approved.

The bill for \$87.15 to cover dinner for a SNCA and Fire School joint board meeting was presented for payment. There was a motion and second to pay the bill. The motion carried.

Dr. Turco will head a committee to select an outstanding fire school instructor to receive an award. The committee members are: Ken Doise, municipal; Grady Baldwin, industry; Ed Harris, SNCA; and Max Sears, managers.

Plans for the 22nd annual fire school are on course. There will be a classroom instructors planning session on Wednesday night May 1, 1991. There will also be a field instructors planning session on Thursday night May 2, 1991. Currently there are 350 registered students.

Several vessels are now being erected at the fire training ground to used as an industrial rescue project. Chevron donated a lot of this equipment to build this project.

The Sabine Towing membership application was read for the third time. There was a motion and second to accept the applicant. The motion carried by unanimous vote.

APR 26 1991

David McMillian and Dick Nugent reported on the DOE drill that was conducted at the Boeing Petroleum site recently. Many fire departments and several emergency medical facilities participated in the drill to assist Boeing.

Education Committee Report

Registrations for the industrial schools offered by Lamar are slower this year than in previous years.

CIMA trained 106 people at the training ground on 4/3/91.

The Texas Forest Service will conduct an Incident Command seminar from 6/4/91 through 6/6/91. Contact Stella Cobb if you need more information. (See Attached Schedule)

Lamar University has scheduled several Hazardous Materials Classes for the remainder of 1991. (See Attached Schedule)

I. D. Card Committee

Robert Bucklin is working on a plan to provide I.D. cards to any member that needs them.

Fire Field Report

D. A. Bruce reported that the field was in pretty good shape, but he needed everyone to attend the workday on Saturday, May 4, 1991.

Dwight Williams announced a foam school to be held on April 22 & 23, 1991. The cost will be \$250. Contact Dwight at the Williams Boots & Coots office for more details.

Dick Nugent reported on the SAGE project. He indicated that the contract had been signed and equipment has been ordered. The installation should be complete within 15 months from 4/1/91.

Ed Harris reported that Jim Davis is running for fourth Vice President of the State Fireman's and Fire Marshal's Association of Texas. It is important that industry send as many voting delegates as possible to the annual convention to show support for the association.

Ed also reported on the following items:

- o There is a bill before the state legislature to combine the regulating authority for all the fire service in Texas into one state commission.
- o A recent fire service instructor school held in Cincinnati provided a lot of information about the industrial certification issue.
- o The TIFTB has issued a report stating that the majority of responders to a recent survey favored some type of certification for industrial fire fighters.

Recent emergencies were discussed.

Mike Lovelady introduced Thomas Brown from National Guardian in Nederland and Jim Armand from Digitize Inc. in Grapevine. They presented a program about the monitoring and control capabilities of some modern equipment.

Erskine Leysath - Secretary

Note: The 505th meeting of the SNCA will be hosted by Star Enterprise on May 1, 1991 at the Ramada Inn in Port Arthur, Texas at 10:00 AM.

The 505th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 a.m. on May 1, 1991 at the Ramada Inn in Port Arthur, Texas.

The invocation was given by Father Don.

Ed Harris introduced Len Baldwin from the host organization, Star Enterprise in Port Arthur. Len welcomed the group and then introduced Frank Brown from Star Enterprise. Frank is in charge of emergency response and environmental affairs for Star Enterprise. Frank expressed a personal and professional appreciation for the job done by the Sabine Neches Chiefs.

Self introductions were made.

The minutes of the 504th meeting were read and amended. The reference to the instructor meetings announced for May 1 and 2, 1991 was deleted. The minutes were then approved as amended.

A dues report is attached to this set of minutes.

Bethlehem Steel moved from Beaumont to Port Arthur in 1989. They are still doing business as the same company and are still members of this organization.

The committee to select the first annual Fire School Instructor Award has met and made a selection. The award will be presented on Tuesday night during the Fire School. The work of this committee is appreciated by the entire community.

The SNCA is a party to a reciprocal agreement of Gulf Coast mutual aid organizations. Attached to these minutes is a list of the other parties to this agreement and their contact points. All requests for assistance must be routed to one of the listed contact points. There are two conditions to be aware of if you need to use this agreement:

- The user may be asked to reimburse the responding parties for wages and expendable items.
- This agreement may not be used if for hire organizations are used at the same emergency scene.

MAY 31 1991

Bobby McDaniel, with the Weather Service, reported that the Jefferson County NWS Office will remain open at least through the year 2000 (see attached letters).

A listing of area spill response equipment is being compiled by John Judice. Area plant managers recently got a request for this information. If you can, please help speed this information to John.

The Education Committee report stated that 448 students were already registered for this year's fire school.

Dr. Ensign would like some feedback on the Incident Command System School that was recently completed.

Lamar plans to offer an infectious disease course and a small quantity generator course in the near future. The price for each course will probably be \$25. Contact Stella Cobb or Marion Foster for more details. John Hubachek discussed progress on the various field projects. He stressed the need for good participation at the workday to be held on May 4, 1991 at 0730.

New I.D. badges and procedures for issuing them are being developed. Robert Bucklin is recovering from surgery, but efforts are under way to expedite this project.

Bobby McDaniel, with the NWS, announced a hurricane preparedness workshop to be held at 1300 on May 23, 1991.

Dick Nugent reported that the SAGE Alerting System is on schedule.

Karen Wind from Diamond EMS led a discussion about the need for a medical supply trailer to be used for local disasters. A committee made up of industrial and governmental agencies has recommended that a 20 patient trailer be provided and stored in Port Arthur. Cost of this trailer and supplies will be approximately 17 to 20 thousand dollars. There was a motion for Ed Harris to write a letter to all SNCA members asking for donations to support this effort.

Recent emergencies were discussed.

Mike Lovelady introduced Mike Braddish from Southern Union Gas, who presented a film program about hurricane Hugo and its impact on the public.

The 505th meeting was adjourned at 12:00 noon.

Erskine J. Leysath, Secretary

Note: The 506th meeting of the SNCA will be hosted by Texas Eastern Pipeline on June 5, 1991 at the Boondocks.

Training Courses for Small Business

John Gray Institute Auditorium
855 Florida Ave., Beaumont, TX 77705

As you may already be aware, an expanding network of federal and state laws dealing with health and environmental issues now affects many entities that were once exempt from regulation, either because of their size or the nature of their funding or operations. A listing of such facilities includes, but is not necessarily limited to:

- Printers
- Dry Cleaners
- Auto Repair & Body Shops
- Health Care Facilities
- Veterinarians
- Funeral Parlors
- Schools & Universities
- Research & Medical Laboratories
- State & Local Government
- Voluntary Emergency Organizations

The Lamar University System recognizes that a large majority of these facilities do not have the staff or resources to keep up with these regulations on a full-time basis, and is offering the following mini-courses to assist with coming into or remaining in compliance with their requirements.

We have identified YOUR FACILITY as one that is affected by one or more of these subjects!

May 23, 1991: 6 - 9 pm
"Right-to-Know"

An overview of the requirements of the Texas Hazard Communication Act: Who is affected, and how employers can comply with its notification and reporting requirements.

June 12, 1991: 9 am - 12 noon
"Infectious Medical Waste"

Current EPA, OSHA and Texas state regulations, policies, equipment, and procedures being used by specialists involved in all aspects of infectious waste management.

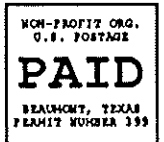

June 20, 1991: 6 - 9 pm
"Small Quantity Generators"

If your business generates hazardous waste, determine if it falls within the less stringent requirements of this category, and how you can develop a 10 step compliance plan.

The charge for each seminar is \$25 per person. If you are interested in attending any or all of these sessions, please complete the registration form on the reverse side of this brochure and return it to the address indicated.

We encourage you to take this opportunity to gain information which could save you time and money!

United States Senate

WASHINGTON, D. C. 20510-4302

January 17, 1991

Mr. Ed Harris
President
Sabine-Neches Chiefs Association
P.O. Box 3269
Beaumont, Texas 77704

Dear Mr. Harris:

Thank you for your recent letter regarding the possible closure of the National Weather Service station in Port Arthur. I am glad to have your comments on this issue.

Due to the frequently changing and sometimes severe weather in Southeast Texas, I recognize the need to have adequate weather forecasting capabilities and share your concerns over any possible reduction in the Weather Service's ability to forecast or warn of severe storms. I have contacted Secretary of Commerce Robert Mosbacher and National Weather Service Administrator Elbert W. Friday, Jr. on your behalf to urge that the Port Arthur station remains open. You may be sure that I will continue to work with Secretary Mosbacher to ensure that Jefferson County has adequate weather forecasting capability and protection, and thank you again for contacting me.

I appreciate having the opportunity to represent you in the United States Senate. If I can ever be of service to you, please let me know.

Yours respectfully,

PHIL GRAMM
United States Senator

NATIONAL WEATHER SERVICE
Silver Spring, Md. 20910

MAR 15 1991

W/MB32

Honorable Phil Gramm
United States Senate
Washington, D.C. 20510-4302

Dear Senator Gramm:

Thank you for your letter, on behalf of Mr. Ed Harris, regarding the National Weather Service (NWS) Office at Port Arthur, Texas.

As Mr. Harris correctly points out, this office is among those which the NWS anticipates phasing out beginning in the mid-1990's. To become more effective and efficient in providing modern weather services to the Nation, the NWS must change the way our field offices are structured and operate. However, I can assure you that this action will not result in the degradation of essential weather services to Jefferson County. In fact, Public Law 100-685 imposes a certification requirement to ensure that operations are not degraded as a result of the transition and requires annual notification to Congress of all NWS modernization activities.

In the modernized NWS, Jefferson County will receive all warning and forecast services from the Lake Charles, Louisiana, Weather Forecast Office (WFO). This office will be equipped with a state-of-the-art Doppler weather surveillance radar and advanced computer technology. The Lake Charles office will be receiving surface weather observations from the Automated Surface Observing System which will be installed at the Jefferson County airport. This system will provide more frequent weather observations than at present for the Port Arthur area. In addition, WFO Lake Charles will program NOAA Weather Radio broadcasts and maintain communication with emergency management agencies.

We are confident that the NWS modernization will result in a better weather service. Important advances in the science of meteorology, coupled with these major new technological capabilities for observing and analyzing the atmosphere, will enhance NWS operations. The NWS of the future will use this modern technology and training to operate a highly advanced warning and forecast network.

I appreciate your interest in this matter.

Sincerely,

Elbert W. Friday, Jr.
Assistant Administrator
for Weather Services

Beaumont, TX 77704

The 506th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on June 5, 1991 at the Boondocks restaurant.

The invocation was given by Father Don.

Ed Harris introduced Harold Bolton from the host organization, Texas Eastern Pipeline. Harold welcomed he group and presented a check to be used for the emergency medical trailer.

Self introductions were made.

The minutes of the 505th meeting were read and approved.

The following bills were presented to the organization and approved for payment:

- o Annual Dues to the State Firemen's and Fire Marshals' Association of Texas , \$100.00.
- o Flowers for Jackie Jacks funeral, \$32.94.

A letter from Gulf Copper, Inc. offering to join the association was referred to the Executive Board for action.

Bosses night will be held December 9, 1991 at the BRAD Club. Please start making arrangements to attend. There will be more information soon, and the program this year will be outstanding.

Donations for the Emergency Medical Trailer total \$2000.00 to date. Several people have expressed an interest in donating equipment and/or supplies.

Stella Cobb presented the following report on the 1991 Fire School. Joe Bob May received the outstanding instructor award. This year there were 433 students enrolled in the school. They represented 73 companies, 27 Texas cities, 14 States and Puerto Rico.

JUN 28 1991

D. A. Buce presented the following report on the 1991 Fire School.

There were no injuries of any type reported during this years school. Dennis extended a personal "Thank You" to all the instructors that served during the school. Dennis also reported that a few complaints were received concerning the conference session class sizes. There was an oil spill to the Neches River when the retention pond overflowed because of the heavy rains. Plans are already under-way to change some of the projects and add at least one more before next years school. A plan will be in place before the next school to equalize the class sizes.

John Paul Feeley introduced Jim Hugo, Manager of Safety for Amarada Hess. Jim explained some new facilities that Amarada Hess plans to build in the Vidor area in the near future. The new facilities will consist of some interconnecting pipeline and other production equipment.

Tommy Wells, acting Chief of Water District 10 VFD, presented a check for the Emergency Medical Trailer.

Captain Whiting reported on the efforts of the marine community within the Golden Triangle to form a co-op or mutual aid group to deal with spills in the Sabine & Neches waterways. He praised the effort and all those involved in making it happen. Captain Whiting also expressed his opinion that the SNCA is the outstanding mutual aid organization. Captain Whiting then reported that he was being transferred to the Middle East and Captain Jim Robinson would be named the new MSO on 6/14/91.

Ed Harris thanked Captain Whiting for all his help and support and wished him well in his new assignment.

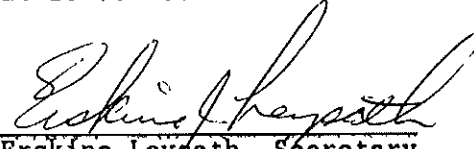

Dick Nugent reported that 911 training for dispatchers will be available by mid June. You can contact Bob Dickerson with the SETRPC to schedule this training.

Recent emergencies were discussed.

Dick Nugent then introduced Jerry Leboue, President of SAGE alerting system. Jerry presented a very interesting program explaining the current status and the future plans for the installation of the Jefferson County SAGE system. Some of the key points that Jerry described were:

- o Jefferson County will have the first SAGE system in the United States.
- o Installation of the first equipment will begin in July of 1991.
- o The entire SAGE system will be operational by June of 1992.

The 506th meeting was adjourned at 12:00 noon.

Erskine Leysath, Secretary

Note: The 507th meeting of the SNCA will be hosted by Sabine Towing on July 3, 1991 at the Ramada Inn in Port Arthur.

PRESIDENT

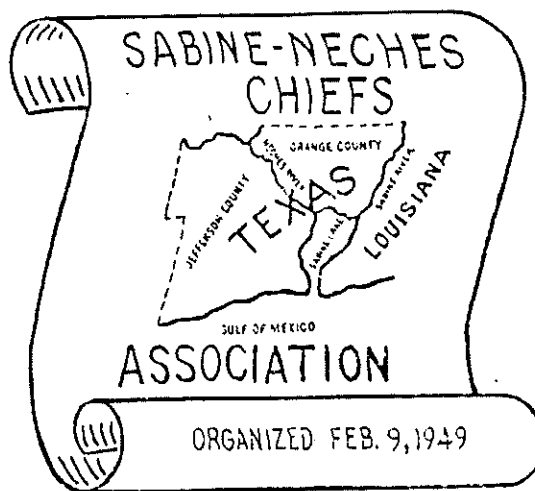

Ed Harris

VICE PRESIDENT

D. A. Bruce

SECRETARY TREASURER

E. J. Leysath

MAILING ADDRESS:

E. I. Du Pont de Nemours & Co.
% Erskine J. Leysath
P. O. Box 3269
Beaumont, TX 77704

The 507th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on July 3, 1991 at the Ramada Inn in Port Arthur, Texas.

The invocation was given by Curtis Holder.

Ed Harris introduced Richard Walker from the host organization, Sabine Towing. Richard welcomed the group and expressed his appreciation for being accepted as a member.

Self introductions were made.

The minutes of the 506th meeting were read and approved.

Ed Harris read a letter from Gary Ensign naming John Hubacek as the official Lamar University representative to the Sabine Neches Chiefs Association.

Donations for the emergency medical trailer are still needed. Fina recently donated \$1000.00 to the trailer fund. The trailer fund currently has a \$4000.00 balance. A list of medical supplies and equipment will be provided soon for those organizations that would like to donate those items. (See Attachment)

Ed Harris made short report on the State Firemen's and Fire Marshals' Association annual convention that was recently held in Longview, Texas. Ed made the point that the association was once again financially sound and the convention was an outstanding success. A presentation by Pete Shelton and several other Beaumont representatives resulted in Beaumont being selected as the site for the 1994 convention. Congratulations are in order for the entire Golden Triangle area and each SNCA member should start making plans to support the convention.

Recently there have been environmental agency inquires and new reports about the air and water emissions at the fire training ground. There are a lot of issues around this subject, and it is obvious that some changes are necessary.

The consensus of the members present at this meeting is the need to develop a positive action plan and then aggressively follow through.

Both the state and federal government are developing oil spill response guidelines. The U.S. Coast Guard will update us on the status of these plans at the next meeting.

Pat Shelton stated that work was in progress on the confined space rescue project.

A membership dues status report is attached to this set of minutes.

The nomination committee will present a slate of nominees at the October meeting. Contact any member of the committee if you want to have input into the nomination process.

Bob Murphy will be the speaker at the Bosses Night Banquet to be held 12-9-91 at BRAD. Please start making plans to attend.

Ed Harris pointed out that a test of the portable fire pumps should be scheduled in the near future.

Mobil Oil conducted an oil spill drill recently and thanked the BFD and PNFD for their help.

Ed Harris announced the following meeting locations for the remainder of 1991:

August 7, 1991 - Dorothy's Front Porch - NFD
September 4, 1991 - Dorothy's Front Porch - Explorer Pipeline
October 2, 1991 - DERA Orange - SRW Du Pont Orange
November 6, 1991 - Goodyear Club Beaumont - Goodyear
December 4, 1991 - Ramada Inn Orange - Firestone

Recent emergencies were discussed.

The 507th meeting was adjourned at 12:00 noon.

Erskine Leysath, Secretary

The 508th meeting will be hosted by the NFD on August 7, 1991 at Dorothy's Front Porch in Nederland. (Directions Attached)

The 508th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on August 7, 1991 Dorothy's Front Parch in Nederland, Texas.

The invocation was given by Curtis Holden.

Ed Harris introduced Chief Lovelady, Nederland Fire Dept., the host organization and D. E. Sosa, City Manager of Nederland.

Self introductions were made.

The minutes of the 507th meeting were read and approved.

Ed Harris presented a bill for \$34.94 for Jackie Jacks' flowers.

Organizational Charts to be updated so they may be presented by end of year.

The Medical Trailer Fund has \$6,800.00 to date. Donations are needed so we may move forward with this project. Motion made by Miller, PAFD, seconded by Curtis Holden, to move ahead with Medical Trailer.

Only two companies have sent in Emergency Response Plans.

The State Firemen & Fire Marshals' Association would like to have Tommy Dearing as their Industrial Fire Protection member on the new board.

Commercial Driver's License

Industrial personnel may be exempt from CDL to operate emergency vehicles.

Industrial Fire School - A & M

Bob Wood reported 1,200 students, 305 instructors. Big problem with heat as always.

Municipal School - A & M

Louis Miller reported 2,300 students attended.

13. 1. 2020

14. 1. 2020

Fire School

Report from Pat Shelton

Dealing with EPA and Texas Water Commission on fuel spill. May have to go to more LP gas and shorter burns on fuel projects. Plans to upgrade projects with better approach ramps. Two people hired at training ground to do maintenance and repair. Let bids on new project August 91.

Red Cross needs funds for purchase of disaster response vehicle. Any money earmarked for this project and not used, will be returned to company.

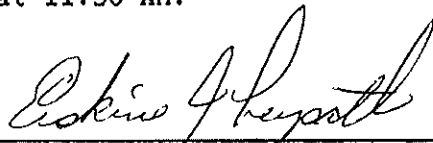

LEPC drill in Beaumont went very well. Some concerns about not having shade for responders to get out of sun. This has been addressed and is being corrected. Next LEPC drill will be in Port Neches in October. Exact date to be set at a later.

Fire Protection Week - October 7th-12th

Big Fire prevention display at Central Mall in Port Arthur that week with demo and drill on Saturday, October 12th.

Recent emergencies were discussed.

The 508th meeting was adjourned at 11:30 AM.

Erskine Leysath, Secretary

The 509th meeting of the SNCA will be hosted by Explorer Pipeline on September 3, 1991 at Dorothy's Front Porch in Nederland.

The 509th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on September 4, 1991 at Dorothy's Front Porch in Nederland, Texas.

The invocation was given by Curtis Holden. A moment of silence was observed for Kermit Tanberg. Many of the members were not aware of his death.

Ed Harris introduced Joe Faver from Explorer Pipeline, the host organization. Joe gave the SNCA a check for \$500.00 out of appreciation for their service to the community.

Self introductions were made.

The minutes of the 508th meeting were read and approved.

Ed passed a draft of the new organizational chart around for members to make changes if needed.

Ed said that we have approximately \$10,000 for the Medical Trailer. We hope to have the trailer by the end of the year. Ron Fieler presented a check for \$1,000 from Atochem toward the Medical Trailer.

The lists for spill response equipment is slow coming in.

Bob Murphy will be the speaker at Bosses Night, to be held on December 9 at the Brad Club.

Ed reported on the last meeting of the Industrial Fire Training Board. It is recommended that those doing fire training follow recommendations of NFA 600.

Stella Cobb would outstanding pictures of fire that could be considered for the Lamar Fire School brochures. If you have such pictures, give her a call at 880-8440.

Lester Crooks said that the fire pump demonstrations will be held in October. We will be notified of the date and place.

John Hubacek said that Lamar Fire School, this year, has trained 40% more students than last year. They hope to make improvements to the LPG evolutions soon.

The 510th meeting of the Sabine Neches Chiefs Association was called to order at 10:00 AM on October 2, 1991 by president Ed Harris at the Ramada Inn in Orange, Texas.

The invocation was given by Curtis Holden.

Ed Harris introduced Harold Burleigh from Du Pont Sabine River Works, the host organization. Harold then introduced Henry Edison III from Du Pont who welcomed the association and invited everyone to tour the Du Pont Sabine Site after lunch.

Self introductions were made.

Minutes from the 509th meeting were read and approved.

Ed Harris announced that the new organization charts were available.

Medical Trailer Report:

Melvin Schmidt reported that none of the trailers available at any cost were suitable for the Medical Response Trailer. The committee has decided to purchase a new 22 foot Wells Cargo trailer for this project. The dealer cost for this trailer is \$5,025.00.

Ed Harris reminded everyone that Bosses Night is Monday, December 9, 1991. Registration forms were available at the meeting and a copy is attached to this set of minutes. Please send complete registration forms to Bill Roe as soon as possible, but no later than December 4, 1991. Ed also announced that we would need a refreshment chairman for Bosses Night in the near future because Jerry Wimberly is stepping down from this position.

The Texas Industrial Fire Training Board will meet at 10:00 AM on October 18, 1991 at the Shell Chemical Complex in Deer Park, Texas.

Dick Nugent reported that the SAGE alerting system has been officially donated to Jefferson County by the Industry Group. The Industry Group has also agreed to provide the annual \$50,000.00 maintenance fee to keep the system operating at peak efficiency.

OCT 31 1991

BMT. FIRE DEPT

Dr. Gary Ensign from Lamar University reported that a "Train the Trainer" course would be available soon at Lamar.

D. A. Bruce made the following comments about the 1992 Fire School and the Fire Training Ground:

Tuition for the 1992 school will \$300.00.

There will be at least one new project added to the 1992 school.

The fire school needs fuel donations.

The conference sessions during the 1992 school will be at the Holidome.

The Fire Training Ground is currently in good shape and more improvements are under way.

On Saturday, October 12, 1991 there will be a fire prevention program at Central Mall. This program is in conjunction with the Cav-Oil-Cade celebration.

Unocal has started a major demolition project at the Smith's Bluff refinery.

Starting next week, 10/07/91, Quantum Chemical will be running evacuation drills for four consecutive weeks.

Recent emergencies were discussed.

The program, a tour of the Du Pont facility in Orange, began right after lunch.

The meeting was adjourned at 12:00 noon.

Erskine Leysath, Secretary

Note: The next meeting will be November 6, 1991 at the Wingfoot Club House on Highway 124 just South of Beaumont. The host will be Goodyear Tire and Rubber Company. (See Attached Map)

CITY OF WEST ORANGE

POLICE DEPARTMENT

ORANGE COUNTY
STATE OF TEXAS

M. Bruce Simpson
Chief of Police

September 26, 1991

Erskine J. Leysath
Dupont Beaumont Works

Beaumont, Texas 77704

Re - Sabine Neches Chiefs Association (mailing list)

Dear Mr. Leysath:

This is to advise you that information pertaining to the West Orange Police Department (on your mailing list) is incorrect.

We are still receiving mail addressed to "Toney Taylor", Chief. Mr. Taylor has been retired from the City of West Orange for two and a half years. Our current chief - M. Bruce Simpson - has held this office for this same time period.

I wrote your office a letter over a year and a half ago to advise you of this change but apparently this information has not gotten to the proper person. I also phoned Lavina Saltzman (a personal friend of mine who works with Grady Baldwin at Dupont Sabine River Works) and asked her to help in seeing that your mailing list info was revised. Apparently this didn't work either as we still are receiving mail addressed to Toney Taylor.

Please correct your list to reflect the following change:

WEST ORANGE POLICE DEPT.
ATTN: M. BRUCE SIMPSON
2700 AUSTIN
ORANGE, TEXAS 77630

Although Chief Simpson has not complained about this, I feel the time has come to get this corrected. I will very much appreciate your help in seeing that this is done.

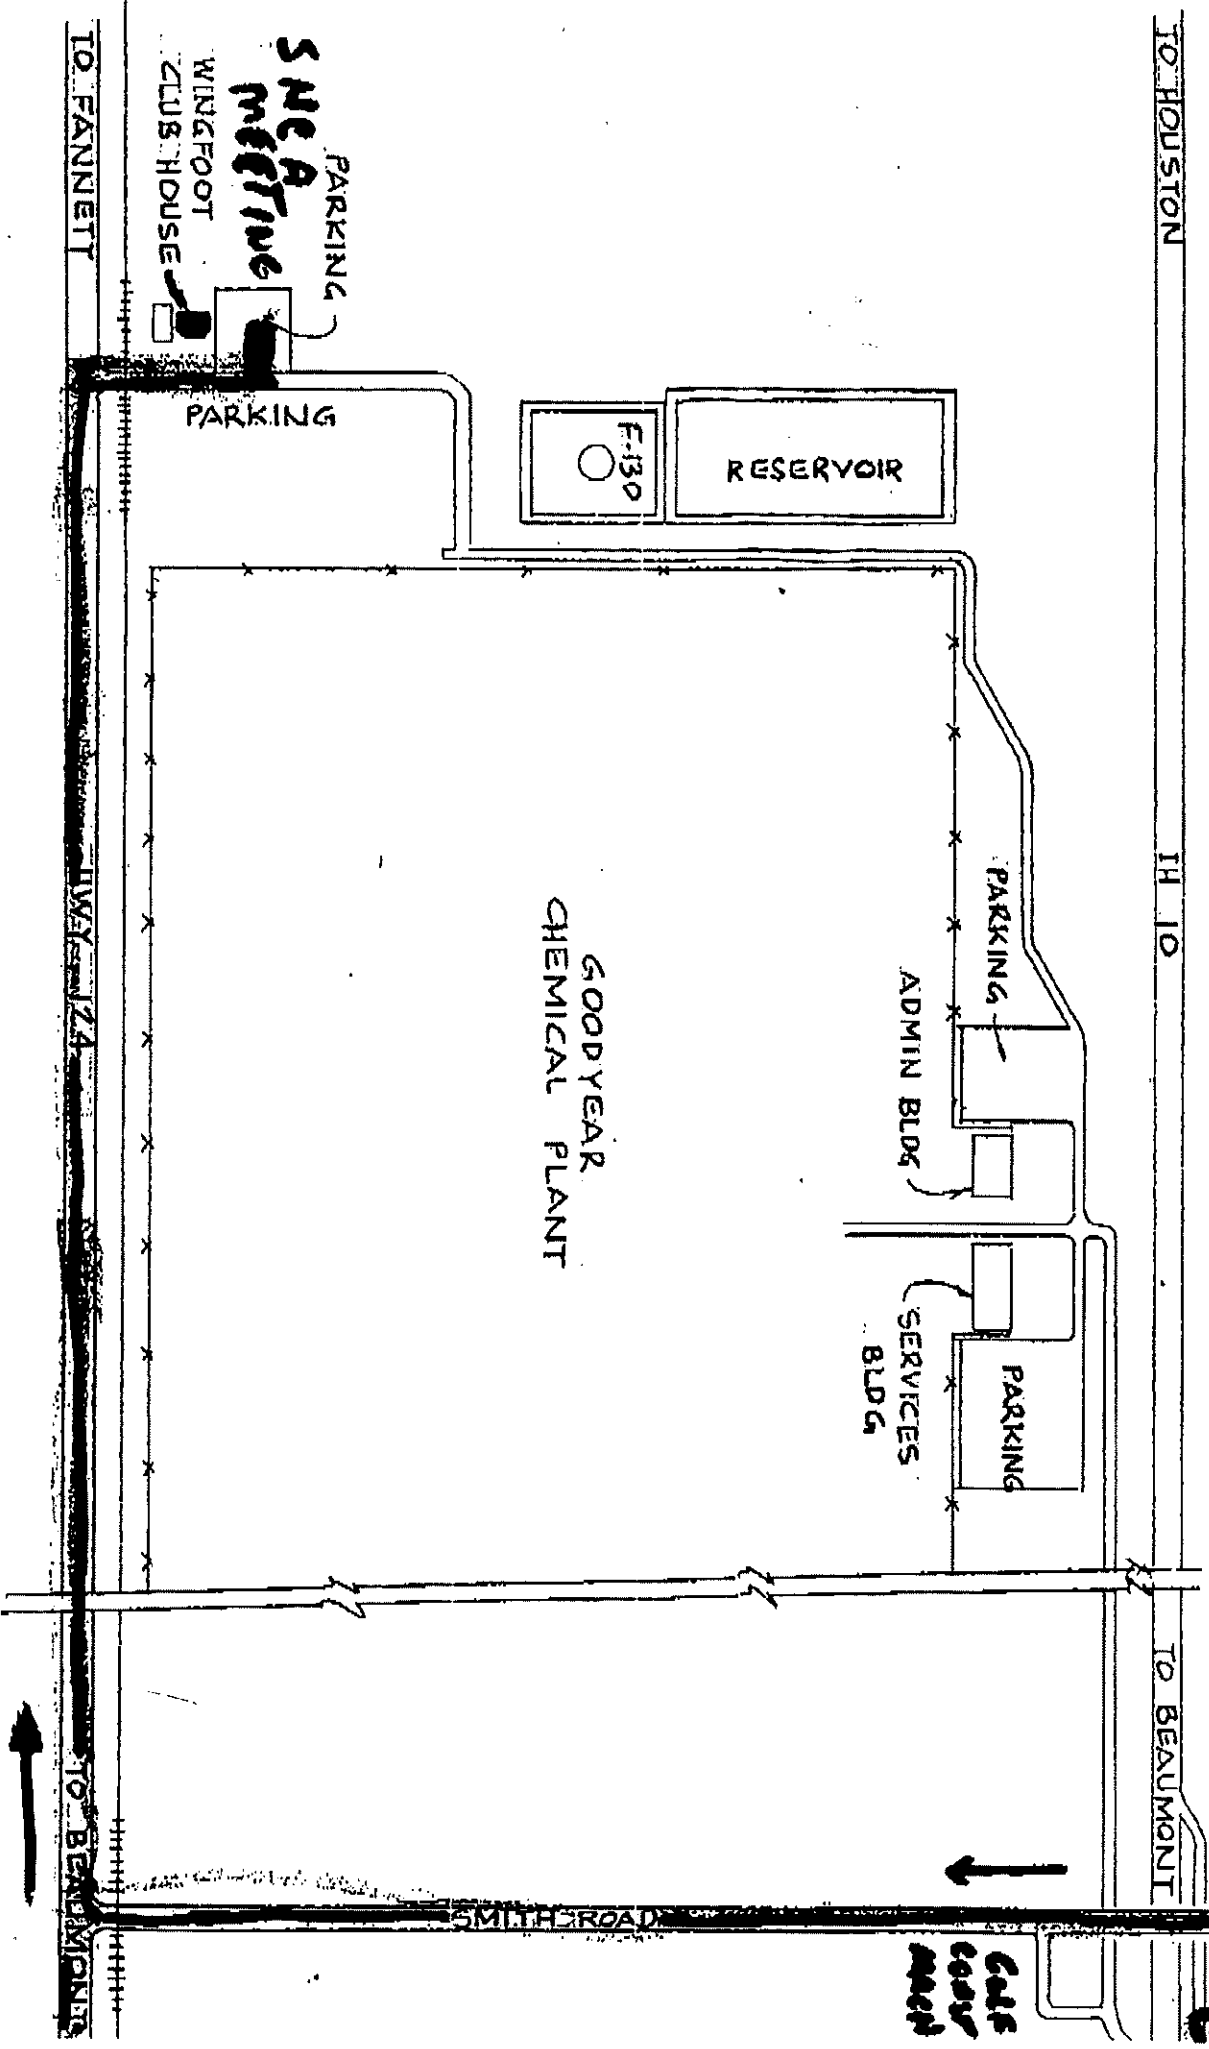

Sincerely,

Donna Whitworth
Secretary - WOPD

/dw

cc: Lavina Saltzman (Sabine River Works)

The 511th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 AM on November 6, 1991 at the Wingfoot Clubhouse.

The invocation was given by Dan White.

Ed Harris introduced Sydney Elliott from the host organization, Goodyear Tire & Rubber. Sydney introduced Dennis Shaeffer who welcomed the association. Dennis thanked the SNCA for their commitment to community service and fire fighter education.

Self introductions were made.

The minutes of the 510th meeting were read and approved.

The following correspondence was received since the last meeting:

- o Thank You note from the family of Kermit Tanberg.
- o Donation from Texaco-Star Enterprise for the medical trailer.
- o Membership certification from the State Firemen's and Fire Marshal's Association of Texas.

Ed Harris announced that Bob Murphy will be the speaker for Bosses Night this year. Ed also reminded everyone to get their Bosses Night reservations to Bill Roe by December 4, 1991.

Ed Harris reported on the recent Texas Industrial Fire Training Board meeting.

The proposed voluntary industrial certification program was approved by the Texas Chemical Council.

The TIFTB has formed a sub-committee to work with the state super-board and the SFFMA on voluntary industrial certification.

Ed also reported that Quantum Chemical has just completed several very successful evacuation drills including a complete plant evacuation during a normal business day. Dick Nugent and several area plants assisted Quantum with the drills.

NOV 27 1991

BMT. FIRE DEPT.

Nominating Committee Report - Pete Shelton

Pete Shelton presented the slate of nominees (attached) for 1992 officers. Pete explained that the second reading of the nominating committee report and floor nominations would take place during the December meeting. The election of officers will also be held during the December meeting. Installation of the new officers will take place at the January 1992 meeting.

Education Committee Report - Dr. Gary Ensign

Planning for the state certification Train the Trainer program is progressing.

Lamar will hold a 1/2 day work shop on customer service November 13, 1991.

Lamar has a four-year degree program available for fire fire professionals. Anyone interested in the program should contact Dr. Ensign for individual counseling.

During the 1992 Traumatology Conference the production company for the 911 television show will be in Beaumont to observe the conference.

Fire Field Report - John Hubacek & Pete Shelton

The bus and flash over projects are both in place.

The field is in good shape with improvements continuing as weather permits.

Pete Shelton reported on a recent meeting with the Texas Air Control Board. The meeting went very well but it was an official complaint meeting.

If there are more than three complaint meetings, things will get more formal and the meetings will take place in Austin. Pete also reported on some recent requests from the Texas Water Commission. The TWC wants a formal clean-up plan for the training ground. Beaumont has a contractor on board to perform a study and make compliance recommendations for some other city concerns and plans to include the training ground in the same contract. However the future of the training ground depends on the cost of dealing with the environmental problems.

Road Block Committee Report - Butch Landry

Butch wants anyone that wants changes made to the SNCA road block map to contact him.

Special Announcements

The medical trailer is going well. A list of needed medical supplies and equipment is attached to these minutes.

Most of the SAGE equipment has arrived and installation will begin shortly. The city of Chicago, IL will apparently get the second SAGE system in the U.S.

Jim Gilispie with Texaco Chemical thanked everyone that assisted in a recent drill at the Texaco dock.

The 512th meeting of the Sabine Neches Chiefs Association was called to order by President Ed Harris at 10:00 A.M. on December 4, 1991 at the Ramada Inn in Orange, Texas.

The invocation was given by Dan White.

Ed Harris introduced Robert Bucklin from Firestone Petrochemical Center, the host organization. Robert then introduced Marvin Waddel from Firestone. Marvin welcomed the SNCA and expressed his personal and professional appreciation for the goals and accomplishments of the association.

Self introductions were made.

The minutes of the 511th meeting were read. Dr. Ensign asked if he could have a letter attached to the minutes that better explains the "bachelor of Applied Arts and Sciences Degree" program. The minutes were approved with the attached letter.

Ed Harris presented a membership application from Beaumont Methanol Corp. The application was referred to the Executive Board for review and recommendations.

Ed then presented bills for the medical trailer, trailer hitch and two plaques to be presented at the bosses night dinner. The vote to pay the bills was unanimous.

Scott Kuyk from Merichem requested that the voting representative for Merichem be changed because of recent re-assignments.

Ed Harris presented a host list for 1992 and 1993. (See Attached List)

Melvin Schmidt told the group that the medical trailer was on display in the parking lot. Melvin also related the following items concerning the trailer:

- o The trailer will be stationed at PAFD station #6 (32nd St. at Memorial Highway)
- o The donated medical supplies for the trailer should be delivered to the Diamond EMS office at 3030 39th St. in Port Arthur.
- o The committee needs some help with the interior design of the trailer.
- o The trailer title and license will be issued to the SNCA.
- o The trailer will have a sign painted on the side identifying it as "Sabine Neches Chiefs Association Medical Response Trailer".

1911

Bill Roe reported that everything was ready for the bosses night banquet. Approximately 200 people have signed up.

The nominating committee report was read for the second time. The meeting was then opened for nominations from the floor and there were none. A motion was made to elect the nominated slate of officers by acclamation. The motion was seconded and passed by unanimous vote. The new officers to be installed at the January 1992 meeting are; President Ed Harris, Vice-President D. A. Bruce, Secretary-Treasurer Harold Burleigh.

Ed Harris is working on committee assignments for 1992. Contact him if you want to change committees or serve in some new capacity.

Ed Harris then gave a report on the voluntary industrial fire fighter program.

- o The Fireman's and Fire Marshals' Association will hire a program administrator to plan, audit, and oversee the record keeping pieces needed to implement the program.
- o Fees for participating industrial membership to the SFFMA will increase to reflect the costs and benefits of the new program.
- o Several new services will be provided such as: new training aids, special mail outs on topics of interest to industrial members, and a regular TIFTB news letter.
- o Ed wants to hear from anyone that has suggestions on creating a top quality voluntary industrial fire fighter certification program.

Education Committee Report

Dr. Ensign highlighted these items:

- o The 1992 Traumatology Conference will be held at the Holidome on February 28 and 29. (Registration Form Attached)
- o The 1992 Fire School bulletin will be mailed during the last half of January.
- o The 1992 Fire School conference sessions are being upgraded.
- o The 1992 field exercises will have a smaller and more uniform number of students.

John Hubacek made these additional remarks on behalf of the Education Committee:

- o The FETN satellite training program producers have asked Lamar university to assist with putting together 10 to 12 training sessions to be marketed nation-wide. Contact John if you can help in this effort.
- o Night time fire training will not be available effective January 1, 1992.
- o The Fire Brigade Leadership course has been changed to a four day ten hour schedule.
- o Bunker gear will no longer be provided by Lamar for use at the fire training ground.

Special Announcements

The 911 System for Harden, Orange, and Jefferson Counties will be fully activated at 9:11 A.M. on December 12, 1991.

Recent emergencies were discussed.

Program

Mr. Al Iaboni, Manager Specialty Products, from Angus Foam of North America presented a very interesting program on the evolution of fire fighting foam.

The meeting was adjourned at 12:00 noon.

Erskine Leysath

Erskine Leysath/Secretary-Treasurer

Note: The next meeting will be at 10:00 A.M. on January 8, 1992 at the Ramada Inn in Orange, TX. The host organization will be Allied Chemical Company.
