

High Risk Warrant Execution Planning For Team Leaders and Supervisors

Course Description: This course will review and critique several real world operations that went tragically wrong and identify problems and solutions that might have prevented injuries and/or the loss of life.

This course will also cover the detailed and pragmatic processes of planning a High Risk Warrant with an effort to avoid or prevent issues with communications, Team movement, equipment, breaching, distractions, searching techniques, contact/cover principles, documentation, and the critique process.

This course will include table top exercise and interaction with students in the planning of simulated High Risk Warrants.

Prerequisites: Law Enforcement, Corrections, or Military personnel with the responsibility of planning High Risk Warrant Operations for dangerous suspects, strong hold objectives, multiple obstacles, and other extenuating circumstances that require detailed planning, rehearsals, and flawless performance to minimize the threat posed to Law Enforcement.

Necessary logistics: Classroom, LCD Projector, Speakers, Screen
