**Upcoming Training Opportunity hosted by  
Orange County Office of Emergency Management  
August 7-8, 2013**

**Training is provided Texas A&M Engineering Extension Service  
(TEEX)**

**Advanced Threat and Risk Assessment Local Jurisdiction  
MGT-315**

This course builds upon the process taught in the current Department of Homeland Security/Federal Emergency Management Agency (DHS/FEMA) Threat and Risk Assessment course (T&RA MGT 310). Participants from all disciplines are guided through all the phases of the DHS FEMA Risk management process, as applied to specific facilities within the host jurisdiction. Threats and hazards to those sites are prioritized, and vulnerabilities at those locations identified through an on-site inspection by participant teams. The consequences of terrorist threats, man-made and natural hazards to the sites are estimated, and options for mitigation to improve the situations that include equipment, training and exercises are defined. MGT 315 is taught in the local jurisdiction. This course is a must for responsible school district leaders.

Registration is open on [preparingtexas.org](http://preparingtexas.org). The location will be provided upon registration. Deadline to register is July 26, 2013.

Please contact Franklin Walters at 409-882-7861 or [fwalters@co.orange.tx.us](mailto:fwalters@co.orange.tx.us) if you have any questions or concerns. **TECLOSE credit is available.**
