RE: Membership Request

To Whom It May Concern:

I am Terry LaFleur, Manager for the City of Beaumont Communications Systems Division under the Information Technology Department. Information Technology Department would like to request membership to the Sabine Neches Chiefs Association.

My department serves the IT function for the City of Beaumont and is part of the Beaumont Emergency Operations Center. We provide day to day support for the two way radios for public safety and public works for the City of Beaumont as well as management for the South East Texas Regional Radio System. We can provide technical support for communications region wide for mutual aide. I am a state certified Communications Leader (COML) and currently represent South East Texas on the State Communications Committee. My department has a Communications on Wheels and other assets that would be available to assist in mutual aid region wide.

Please do not hesitate to contact me for any questions you may have.

Thank you for your consideration.

Sincerely,

Terry LaFleur

SNCA Board:

The City of Beaumont Information Technology (IT) Department has asked to be allowed to join the Sabine Neches Chiefs' Association as a voting member. They serve an IT function for the City of Beaumont and also provide day to day management of the South East Texas Regional Radio System (SETRRS). IT is a critical support function for all responders and communication is a core capability required for effective management. Terry LaFluer would be a member and currently represents the region on the State Communications Committee as well as the SETRRS and is well known to many members and member agencies. He was instrumental in the recent successful connection of the radio system between South West Louisiana and the SETRRS and several other interoperable radio connections needed for State and mutual aid response coordination during the recent flooding disaster declaration. The department and its various functions are also part of the Beaumont Emergency Operations Center staffing and program. They do have a Communications on Wheels and other deployable assets such as radios and expertise to bring to the table for mutual aid. I respectfully submit they will be a great asset to our organization and the Communications SubCommittee.

Your support of this recommendation would be greatly appreciated.

Respectfully,

Tim Ocnaschek
Captain
Beaumont Police Department
